Schaff Angus Valley®

115th Production Sale

Saturday • February 10, 2018 • 10 am CST at the ranch

460 BULLS · 210 FEMALES

SAV Seedstock 4838

The Brand that you Believe in...

$ Affordable Genetics for the Cowman

The focus of the Schaff Angus Valley program is on serving the commercial cowman and providing high quality bulls in volume at affordable prices. Whether your budget is $3000, $5000 or more, you can expect to find a good selection of bulls in everyone's price range.

PHONE ORDERS

Buyers unable to attend the sale may call or send their bids to the owner, Kelly Schaff or to Bob Watkins, sales staff or fieldman. If you would like to discuss the sale offering, call us (preferably several days before the sale) and describe your needs and budget and we can help select your genetics for you. We can bid on the animal for you and you pay only the bid price established by the auction. Bids are handled in confidence with SATISFACTION GUARANTEE on all orders.

Col. Lynn Weishaar

INSURANCE:

New insurance alternatives are available this year. Dakota Ag Insurance will be on hand with a much broader range of coverage options, including mortality, infertility due to accident, sickness, disease or injury, as well as winter freeze, frostbite and beyond. Contact Jarod Mohnen at 605-682-1368 for options and rates. Purchaser assumes the risk for death or injury to their livestock immediately after they are sold and insurance is recommended.

FREE NATIONWIDE DELIVERY

Schaff Angus Valley is offering free nationwide delivery on bulls to sale barns and central stockyard points.

$100 DISCOUNT PER BULL IF YOU HAUL YOUR OWN SALE DAY!

We ask buyers to please be willing to travel to central drop points and meet trucks at sale barns along central routes. Drop points need to be consolidated to make delivery feasible and avoid cattle in transit too long. SAV will coordinate delivery on females if the buyer desires, however the cost is the buyer's responsibility. Canadian and Mexican purchases and bulls going to semen collection facilities will be available to pickup at the ranch following the completion of health testing requirements and delivery arrangements and costs are the buyer's responsibility.

SALE LOCATION:

Schaff Angus Valley is located approximately 30 minutes from Bismarck/Mandan, ND. The sale will be held in the heated sale facility at the Schaff Angus Valley headquarters. A map and directions are listed on the inside back cover.

TRANSPORTATION:

Bismarck, ND is served by bus and major airlines, with direct flights from Minneapolis, Denver, Chicago, Dallas, Phoenix and Las Vegas. Early reservations are recommended for flights and rental cars. The surrounding towns of Fargo, Minot, Jamestown and Dickinson also have air service. Schaff Angus Valley is located 30 minutes from the Bismarck airport, sale headquarters and shopping mall. See map on the inside back cover.

ACCOMMODATIONS:

Please mention that you are attending the Schaff Angus Valley Sale when making reservations for the best rates. Early reservations recommended!

Fairfield Inn - (701) 223-9077

CATTLE VIEWING:

The sale offering will be on display for viewing at the ranch all day on Friday, February 9th with food and refreshments available. We welcome your visit to the ranch anytime prior to the sale.

TERMS:

Terms of sale are cash or check. All cattle must be settled for at the conclusion of the auction. Cattle will not be released from the sale premises until payment is received in full. Bulls that are not settled for in full within 7 days of the auction are not eligible for the free delivery.

GUARANTEE:

The sale offering is guaranteed to be fertile and reproductively sound in accordance with the terms and conditions as recommended by the American Angus Association. This guarantee does not cover injury or death. In the event of a problem, the buyer is responsible to return the animal to SAV and if it does not respond as a satisfactory breeder, will have the option to select a suitable replacement, if available, or take a sale credit. Any potential claim needs to be made by September 1st of the year of purchase.

SEMEN INTERESTS & POSSESSION:

Schaff Angus Valley is retaining one-third revenue sharing semen interest in every bull selling in this sale. Full possession and full salvage value sells on all bulls unless otherwise identified prior to the sale. Each year SAV retains possession on several bulls. Retained possession bulls are available for semen collection only and are required to be returned by the purchaser for SAV's natural breeding season. There is no guarantee on bulls to freeze semen unless specific terms are agreed prior to sale. SAV reserves the right to sell AI certificates on all bulls.

BULL DEVELOPMENT:

The bulls have been developed in large groups on a high roughage ration to ensure long-term soundness and customer satisfaction.

GENETIC RECESSIVES

This entire sale offering is free of all known genetic defects and recessives monitored by the American Angus Association, with exception of lot 370.

HEALTH:

All cattle will be accompanied by proper health certificates for shipment and have had a complete vaccination program.

LIABILITY:

Schaff Angus Valley assumes no liability for accidents or injuries that occur on the sale premises. Potential claims of any kind must be settled in North Dakota Morton County Court.

SALE ORDER:

The bulls will be sold in sire groups. This is to aid customers in selecting brothers to produce a more uniform calfcrop. As a result, bulls of consistent quality will sell throughout the duration of the auction. A sale order will be available prior to the auction.

Welcome to our 115th Angus Production Sale. We confidently present our highest quality and most uniform offering of seedstock to date. Striving toward continual genetic improvement is a motivating and exciting challenge. The greatest reward we can receive is the satisfaction of knowing the SAV brand is positively impacting the programs and livelihoods of our customer base and benefiting the beef industry.

We are very grateful and humbled for your support that has made the SAV brand flourish and become a dominant presence in the beef industry and the most recognized and respected brand of Angus genetics around the world. We fully understand the responsibility and expectations that come with this honor and are committed to producing the kind of genetics that will enhance real-world productivity and profitability. The barometer on which we gauge our breeding program is disciplined and focused on the essentials that affect profitability of the cowman who sells pounds for a living, with the necessity to do it in an efficient and practical manner. A keen awareness of performance, phenotype, structure and maternal traits remain paramount, with particular emphasis on the cowherd and basic profit-driving traits beyond EPDs or computer projections – fertility, fleshing-ability, structural integrity, maternal quality and the bred-in ability to raise heavy, market-topping calves and produce a quality end product. We are pleased to see that many of the top-selling feeder cattle and replacement heifers in the country are influenced by SAV genetics and gratified to see harvest data from many large and diverse commercial herds showing that SAV genetics are earning the highest end-product premiums being paid today. This real-world information and customer feedback give us the insight to advance and refine our program.

Our innovative breeding program is constantly calibrated to monitor improvements and advancements in the genetic product we offer. As you turn the pages of this catalog, you will see the results of these efforts. The offering is loaded with performance and quality and the selection is vast – presenting an opportunity to access reputation SAV genetics in volume with an excellent selection in price ranges affordable to the cowman. The 2018 bull offering is the highest performing set we have ever offered. It has been a highlight of my year watching this competitive set of bulls grow and advance toward sale day. They are truly the kind we strive to produce. The female offering includes hand-picked bred heifer, cow and donor features, and a sensational set of replacement females representing the freshest genetics of our program and daughters from all of our leading donors and cow families. These females all carry the authentic SAV prefix that is recognized all around the globe. You are truly investing in a piece of the program – they will make a lasting contribution and have a lifetime of earning potential.

The success of our customers is our greatest inspiration and our highest priority. It is an honor and privilege to serve as your seedstock source and we thank you for the confidence you have placed in our program. If we can be of any assistance in any way, please don't hesitate to contact us. We look forward to seeing you on sale day!

Sincerely,
Kelly Schaff

Kourtney, Martie Jo, Kelly, Kelsie Schaff

Special thanks to our dedicated and talented SAV team who are responsible for our success and diligently handle the daily tasks at the ranch.

Bob & Cathy Watkins

Zach Timberlake, Nolan Sebert, Chad Burcham, Mark Isaacs

701-704	Priscilla females
705-707	Blackbird females

Performance Data

Commercial cattlemen sell their feeder and slaughter cattle based on what they actually weigh on a scale. When investing in seedstock, it is important to be provided actual performance data such as 205-day wts., 365-day wts., ribeye area, etc., rather than only computer generated projections. EPDs change weekly, while the amount that a bull weighed at weaning or scanned on ribeye for instance, will never change. EPDs with inflation from genomics have gone up dramatically in the past several years, but the actual weights have not. In fact, the average 205-day weight of all Angus bulls calculated by the American Angus Association has only went up 13 lbs. in the past ten year period. The breed average 205-day weight in 2006 is 650 lbs. and the 2016 breed average is 663 lbs. The average 205-day weight of the bulls at SAV has increased 117 lbs. in the past ten years. We have included in this catalog the difference in actual pounds at 205-days of each bull selling, relative to the current breed average – important information if you sell cattle by the pound.

This symbol denotes Pathfinder status.

Expected Progeny Difference (EPD)
Is the prediction of how progeny of each animal are expected to perform relative to the progeny of other animals in the Angus breed. As data continues to accumulate, accuracy levels rise and EPDs can shift accordingly.

Birth Weight EPD (BW)
Expressed in pounds, is a predictor of transmitting ability for birth weight. The Angus breed is noted for calving-ease. A bull with a Birth Weight EPD under +2.2 is generally regarded as suitable for mating with virgin heifers.

Weaning Weight EPD (WW)
Expressed in pounds, is a predictor of the transmitting ability for weaning weight. An emphasized trait when marketing calves at weaning. For example, you can expect progeny from a sire with a +60 weaning EPD to weigh 30 lbs. more at weaning on the average than progeny from a sire with a weaning EPD of +30.

Yearling Weight EPD (YW)
Expressed in pounds, is a predictor of transmitting ability for yearling weight. An emphasized trait for yearling feedlot performance and profitability.

Scrotal Circumference EPD (SC)
Is a predictor of transmitting ability for scrotal size. An indicator of fertility in both bulls and females.

Maternal Milk EPD (Milk)
Is a predictor of transmitting ability of the portion of calf weaning weight attributed to daughters' milk. An indicator of replacement female production level.

Carcass Weight EPD (CW)
Is a predictor of transmitting ability for hot carcass weight.

Marbling EPD (MARB)
Is a predictor of transmitting ability for intramuscular fat. The vast majority of straight Angus cattle will grade USDA Choice or higher under normal feedlot management.

Ribeye Area EPD (REA)
Is a predictor of transmitting ability for ribeye area. Muscle is a key component of yield grade.

Fat Thickness EPD (FAT)
Is a predictor of transmitting ability for external fat thickness and correlates to fleshing ability.

Weaning Ratio (WR)
Is a direct comparison of an individual to others in its contemporary group. A weaning ratio of 100 is always average for the group and a figure below or above 100 is the percent difference that the animal is above or below the average.

All of the EPDs, birth weights, 205-day weights, ratios and ultrasound information in this catalog is official data processed by the American Angus Association and are current as of December 2017 when this catalog was prepared for press. Updated EPDs will be available at sale time. The 365-day weights have been calculated using individual lifetime average daily gain x 365 days + birth weight, thus giving a more accurate reflection of the actual weight of each bull at 365 days of age. WDA is weight per day of age at 365 days of age (365-day weight divided by 365 days). A supplemental sheet will be available sale day with scrotal measurements, ultrasound data and updated EPDs.

SAV Resource 1441 is the benchmark performance sire of the Angus breed. He is a proven commodity and performance-trait leader with no equals for consistently adding muscle, volume, base-width, natural fleshing-ability, feet quality, docility, breed character and pounds in the right package. He remains the #1 semen revenue bull at Genex AI Stud with unprecedented popularity around the globe. Resource sons have widespread industry appeal, dominating more sales than any sire group in breed history. Resource daughters are making ideal brood cows with beautiful body type, impeccable udders and optimum milk – earning him his highest rate of approval.

His legendary dam, SAV Blackcap May 4136, is the Angus breed's most influential genetic contributor and all-time top income-producing cow, generating an astounding $8.5 million in progeny sales on 174 direct sons and daughters in past SAV sales to cowmen in 25 states, Canada and Brazil. She has an arsenal of 56 daughters retained in the SAV herd, many whom have achieved donor status.

His prolific Pathfinder grandam, SAV May 2397, is the third top income-producing cow in SAV history. She has placed seven direct sons in AI studs and has 28 daughters working in the SAV herd.

The 2018 SAV Sale features 123 direct progeny of Resource, as well as 15 maternal siblings and his vast influence.

His dam

SAV BLACKCAP MAY 4136

The #1 income-producing cow in Angus breed history with $8.5 million in direct progeny sales. She has 56 daughters working in the SAV herd and her sons include Resource, Renown, Recharge, Pedigree, Universal, Seedstock, Sensation, President, Raindance, Rainfall, Rainmaster, Reign, Governor and more.

SAV RESOURCE 1441

Resource in the breeding pasture.

SAV REGARD 4863

The lead-off and top-selling Resource bull in the 2015 SAV Sale to Genex AI Stud and partners. He has 53 direct progeny and 23 maternal siblings selling in this event.

SAV RANCH WORLD 5288

This Resource son is the #1 205-day weight and #1 365-day weight bull of his calfcrop and second top-selling bull in the 2016 SAV Sale.

SAV Resource 1441 in active breeding duty at 6 1/2 years of age.

- **SAV Territory 7225 confidently takes on the prominent position of lot 1 as possibly the single greatest son of the legendary benchmark performance sire, Resource. He represents everything we strive to produce with the phenotype and genotype of a cowmaker supreme who will leave the kind of deep, capacious, easy-fleshing, productive daughters the industry craves – the kind to rebuild the breed around. He presents pounds in the right package as well as any could hope to achieve, earning a 205-day weight of 1075 lbs. for a weaning ratio of 114 and EPDs for weaning and yearling weight in the breed's top 1%.**
- **His incredible dam by Density has been a herd favorite since she was a heifer calf. Her impeccable body type, foot structure and udder quality place her in a very elite class. She records a weaning ratio of 104 on 3 calves and has entered the embryo program.**
- **His incredible grandam by Bismarck records a weaning ratio of 107 on 6 calves. She has five daughters retained in the herd and has scored two AI stud sons, including SAV Thunderbird 9061. His third dam is a full sister to Predominant and is the dam of the $80,000 SAV Birthstone 8258.**
- **Great bulls always come from great cows and great cow families. The productivity, fertility, longevity and maternal value of the Emblynette dams behind lot 1 will run with the best.**

- **SAV Acreage 7875 leads the charge of brothers who result from the mating of Resource to the lowest birth EPD cow in the SAV herd, SAV Emblynette 0084. He is an eye-catcher with muscle, volume, mass and herd-changing type – the kind who will take your herd in the right direction.**
- **A full brother, SAV Ambition 6458, was selected by Square B Ranch as the $35,000 lead-off Resource bull in the 2017 SAV Sale. A full sister scanned the largest ribeye of the 2016 calfcrop.**
- **Their feminine, perfect-uddered dam by Bismarck serves in the SAV embryo program. She has three daughters retained in the herd and five progeny highlighting past SAV sales, including the $40,000 SAV Angus Acres 3205 at Alta Genetics and the $57,500 SAV Boot Cut 6210 at Mound Creek Ranch.**
- **Their Net Worth grandam comes from four consecutive generations of elite Pathfinders.**

SAV EMBLYNETTE 8411
Maternal grandam of lots 2-4. Her son, SAV Grass Roots 5282, was the featured lot 1 bull in the 2016 SAV Sale to Zeus Farms.

SAV EMBLYNETTE 7261
Pathfinder third dam of lots 2-9, continuing in production at 20+ years of age.

SAV ANGUS ACRES 3205
Maternal brother to lots 2-4 at Alta Genetics AI Stud.

SAV BOOT CUT 6210
Maternal brother to lots 2-4 selected by Mound Creek as a top-selling feature of the 2017 SAV Sale.

SAV AMBITION 6458
Full brother to lots 2-4 selected by Square B Ranch from the 2017 SAV Sale.

Resource bulls from the SAV Emblynette family established at SAV in 1946...

SAV DOMINANCE 7047 - LOT 7

"Thank you for getting in touch with a buyer for my calves and all you do for me and the cattle industry. You and your cattle are awesome."

- **SAV Settlement 7278 demonstrates thickness, muscle, volume and powerful performance in an attractive, herdbull package – one of the best to sell. He earned a 205-day weight of 1038 lbs. for a weaning ratio of 110.**
- **His gorgeous dam by Harvestor is moderate and feminine with a perfect udder and abundant milk – follows the mold of the three generations of Pathfinder dams that produced her. She records a weaning ratio of 107 on 2 calves. Her first son was selected by Saunders Land & Livestock as a feature of the 2017 SAV Sale.**
- **His Pathfinder grandam was Kelsie's 2007 4-H project heifer and records a weaning ratio of 104 on 10 calves and has four daughters retained in the SAV herd.**

- **A congress of nine fantastic brothers from the mating of Resource to the maternal masterpiece, SAV Madame Pride 0235. They have concentrated cow power and maternal value in their blood to lead the industry and make a lasting contribution – one of the most popular flushes in SAV history.**
- **Their feminine, heavy-milking, beautiful-uddered Density dam is a world-class producer. She earned a weaning ratio of 106 on 3 calves and has served in the embryo program along with a daughter and two flush sisters. Two sons have highlighted past SAV sales to Vernon Copsey and Brockmere Farms and four daughters are retained in the SAV herd.**
- **Their grandam is the maternal matriarch, SAV Madame Pride 0075, who served the SAV program for 17+ years and generated $3.6 million in progeny sales with 41 daughters retained in the SAV herd.**

Nine flush brothers by Resource from the maternal masterpiece, SAV Madame Pride 0235...

- **SAV Dependable 7878 is a cowmaker supreme that you can depend on to improve and build a high quality cowherd. He has a maternal resume second to none – backed by the best maternal breeding in the business. He is a full brother to the new generation embryo donor, SAV Madame Pride 3256, who is the #1 yearling and #3 weaning EPD cow in the SAV herd.**
- **His heavy-milking dam by Pioneer has striking maternal quality and serves as a sixth generation embryo donor with a track record second to none. She earned a weaning ratio of 107 on 6 calves and has several top-selling sons in past SAV sales, including SAV Influence 4043 at Diamond J and Alta Genetics AI Stud.**
- **His grandam is the maternal matriarch, SAV Madame Pride 0075, who served the SAV program 17+ years. She has 41 daughters retained in the SAV herd and 142 progeny featured in past SAV sales, including the herdsires SAV Registry 2831, SAV Response 2411, SAV Hopper Bottom 2144 and SAV Supercharger 6813.**

Resource bulls from the SAV Madame Pride family...

SAV PRAIRIE GRASS 7413 - LOT 47

- SAV Prairie Grass 7413 is an attractive Resource bull with length, thickness, capacity and a wealth of performance. He earned a 205-day weight of 1026 lbs. for a weaning ratio of 109 and EPDs for weaning and yearling weight in the breed's top percentiles.
- His moderate, easy-fleshing, nice-uddered dam by Brand Name descends from the very first Schaff cow to be enrolled in embryo transplant. A daughter is retained in the SAV herd and sons have sold in past SAV sales to Rick Leach and Kenny Ogden.
- His grandam is the maternal matriarch, SAV Madame Pride 0075, who served the SAV program for 17+ years and is the second top income-producing cow in SAV history.

SAV NATIVE PRAIRIE 7215 - LOT 48

- SAV Native Prairie 7215 is a performance powerhouse – thick, durable and rugged-built with tons of muscle, a powerful rump, massive volume and plenty of bone – dominating in every way. He earned a 205-day weight of 1094 lbs. for a weaning ratio of 116, ranking among the three top-indexing bulls of his entire calfcrop and generating EPDs for weaning and yearling weight in the breed's top 1% - important numbers if you sell cattle by the pound.
- His moderate-framed, productive dam has a perfect udder. She records a weaning ratio of 110 on her first two calves and weaned off an amazing 87% of her body weight this past year – a model of efficiency! A daughter was a top-selling feature of the 2017 SAV Sale to Bogle Ranch.
- His Brand Name grandam is the last natural daughter of the maternal matriarch, SAV Madame Pride 0075, who served the SAV program for 17+ years.

Friendly dispositions!

Resource bulls from the SAV Madame Pride family...

SAV DEFINITIVE 7212 - LOT 49

- SAV Definitive 7212 is an attractive herdsire prospect with length, thickness, capacity and performance. His docility and friendly personality are an added bonus. He earned a 205-day weight of 985 lbs. for a weaning ratio of 104 and EPDs for weaning and yearling weight in the breed's top 5%.
- His nice-uddered dam by Hesston comes from six consecutive generations of SAV embryo donors.
- His 13-year-old grandam, SAV Madame Pride 5290, has 22 daughters retained in the SAV herd and 114 progeny highlighting past SAV sales.

SAV Regard 4863 was the $180,000 lead-off and top-selling Resource bull in the 2015 SAV Sale to Genex AI Stud and partners, appreciated for his powerful thickness, expressive muscle shape and superb structural design. He was a top-performing bull of his calfcrop, earning a 205-day weight of 1076 lbs. and a 365-day weight of 1538 lbs. Regard has vividly demonstrated his ability to transmit his phenotypic attributes to his powerful progeny who are in a category of their own, presenting incredible thickness, outlier muscle shape, stoutness, and off-the-charts performance, along with superior soundness and impeccable feet quality. His progeny have earned him proven EPDs for weaning weight, yearling weight and ribeye in the breed's top 1%.

His powerful dam, SAV Blackcap May 5530, records a weaning ratio of 108 on 5 calves. She has distinguished herself as an outlier in the Angus breed for her combination of muscle and maternal and has assembled a production record that few could hope to achieve. She reigns among the six top income-producing cows in SAV history with $1.7 million in receipts on 64 progeny averaging $25,850 in past SAV sales to cowmen in 18 states, Canada and Brazil. She has 29 daughters retained in the SAV herd.

The 2018 SAV Sale features 53 direct progeny of Regard, as well as 23 maternal siblings.

His Pathfinder dam

SAV BLACKCAP MAY 5530

A powerful, potent, productive Pathfinder with breed-impacting influence. She has 29 direct daughters working in the SAV herd and her herdsire sons include Regard, Cutting Edge, Brand Name, Priority, Robust, Reproduction and Ignition. 23 direct progeny are featured in this sale.

SAV BLACKCAP MAY 4574

Flush sister to Regard serving in the SAV embryo program.

Great crew and great friends!

Bulls on display at the 2017 SAV Sale!

- **SAV Quarterback 7933 is a definite AI stud candidate and potential sale-topper with flawless phenotype and unmistakable herdbull presence, no matter what angle you view him from. He wins the number race as the #1 weaning and #1 yearling EPD bull of the entire 2017 calfcrop and earned an official 205-day weight of 1081 lbs. In a breeding program known around the globe for performance and phenotype, he raises the bar as high as any in SAV history.**
- **His phenomenal dam by Final Answer is a new generation SAV headliner donor with a bright career ahead. She excels in all areas of femininity, body type and udder quality. She is the #3 ribeye EPD cow in the SAV herd and records a weaning ratio of 105 on her first three calves and an IMF ratio of 126 and REA ratio of 103 on two progeny scanned. Her first two natural calves were heifers retained in the SAV herd.**
- **His prolific Pathfinder grandam, SAV May 2397, is the third top income-producing cow in SAV history with $1.9 million in progeny sales. She has 28 daughters retained in the SAV herd, also including the elite donors: SAV Blackcap May 4136, SAV Blackcap May 8961, SAV Blackcap May 1782 and SAV Blackcap May 1808. She has 118 progeny highlighting past SAV sales and seven AI stud sons to her credit.**

Opening address at the 114th Schaff Production Sale.

SAV BLACKCAP MAY 3525
Dam of lot 84.

SAV MAY 2397
Pathfinder grandam of lot 84 and third top income-producing cow in SAV history.

SAV BLACKCAP MAY 4136
Maternal sister to the dam of lot 84 and full sister to dam of lots 85-89. The Angus breed's most influential genetic contributor.

One of the most powerful and dominating flushes in Angus breed history...

The #1 205-day weight embryo bull of the 2017 calfcrop...

SAV LINEBACKER 7961 - LOT 85

"Our SAV influenced bulls have made such an impact on our herd and operation, we can't look back."

-David Sorenson

- **Flush brothers with an intriguing, power-packed pedigree that includes a double-shot of SAV Blackcap May 4136 blended with SAV Blackcap May 5530 – intensely linebred to the very best of the Blackcap May family! They are led by SAV Brady 7938, who has been a front runner since birth and on the radar of the Angus world. He earned a 205-day weight of 1095 lbs. ranking second among the entire 2017 embryo calfcrop. He is a big, strapping, heavy-muscled stud with an athletic stride and lots of yards to run. Full brothers were selected by Denny Topf as top-selling features of the 2017 SAV Sale.**
- **Their legendary dam, SAV Blackcap May 4136, is the #1 income-producing cow in Angus breed history with $8.5 million in direct progeny sales. She has 56 daughters working in the SAV herd and numerous herdsire sons to her credit, including Resource, Renown, Recharge, Heritage, Pedigree, Universal, Seedstock, Sensation, President, Rainfall, Raindance, Governor and more.**

SAV BRADSHAW 7533 - LOT 91

SAV RESOURCE 1441
Proven benchmark performance sire for the Angus breed and #1 semen sales bull at Genex AI Stud. Maternal brothers sell as lots 90-92.

Uniquely linebred herdsire prospect - SAV Lineman 7075 - Lot 93...

SAV LINEMAN 7075 - LOT 93

"Our SAV cattle look awesome and are fast growing. Everyone that sees them, loves them."

-Grayling & Marilyn Stayner

- **SAV Lineman 7075 presents an outstanding genetic and visual package to be a major factor of this event. He brings an intensely linebred pedigree and curvebending EPD profile to center-stage. Phenotypically he is everything his name would imply – stout, thick, ripped with muscle and built solid and sound from the ground up. He earned a 205-day weight of 1016 lbs. for a weaning ratio of 109 and records one of the largest ribeye EPDs of his calfcrop.**
- **His front-pasture dam is the second lowest birth EPD cow in the SAV herd and from the same historic flush that produced Resource. She balances a birth ratio of 96 with a weaning ratio of 102 on 5 calves. She is phenotypically flawless in terms of femininity, body type and udder quality. She serves as a fifth generation SAV embryo donor and rising near the top of the herd. Her sons have highlighted past SAV sales to Powell Farms, Lynn Ritz, Reising Cattle and Buford Ranches.**
- **His legendary grandam, SAV Blackcap May 4136, needs no introduction as the #1 income-producing cow in Angus history.**

SAV HINDQUARTERS 5006
Maternal brother to lot 93 selected by Buford Ranches and Reisig Cattle from the 2016 SAV Sale.

SAV Renown 3439 is the $175,000 lead-off bull from the 2014 SAV Sale and has taken center-stage as one of the most popular, respected and highly sought after sires in the Angus world and major headliner at Genex AI Stud. He awards his progeny with phenotypic quality, structural balance, growth, muscle, performance and docility. His sons scan exceptional ribeyes and have enjoyed record demand in the past two SAV sales, including SAV Abundance 6117, the featured lot 1 bull from the 2017 SAV Sale who has joined his sire at Genex AI Stud. Renown daughters in production are simply tremendous – extra feminine and broody with abundant milk, high-quality udders and raise heavy calves. They are favorites at SAV and everywhere they have freshened.

Renown is the result of the same proven and predictable mating that created Resource, Recharge and many of the greatest young cows in the SAV program. He represents the best of the timeless Rito 707 performance lineage known for efficiency, natural fleshing-ability, thickness, muscle, superb structure, feet quality and authentic Angus breed character.

His legendary dam, SAV Blackcap May 4136, is the Angus breed's most influential genetic contributor and all-time top income-producing cow, generating an astounding $8.5 million in progeny sales on 174 direct sons and daughters in past SAV sales to cowmen in 25 states, Canada and Brazil. She has an arsenal of 56 daughters retained in the SAV herd.

The 2018 SAV Sale features 67 direct progeny of Renown, as well as 15 maternal siblings.

His dam

SAV BLACKCAP MAY 4136

The #1 income-producing cow in Angus breed history with $8.5 million in direct progeny sales. She has 56 daughters working in the SAV herd and her sons, include Resource, Renown, Recharge, Pedigree, Universal, Seedstock, Sensation, President, Raindance, Rainfall, Rainmaster, Reign, Governor and more.

SAV THRIVE 5054

This Renown son was selected by Semex AI Stud as a top-selling feature of the 2016 SAV Sale.

SAV ABUNDANCE 6117

The $135,000 featured lot 1 bull in the 2017 SAV Sale by Renown, selling to Triple W Farms, GMC Genetics and Genex AI Stud.

SAV MORTON COUNTY 5010

This Renown son was selected by Waters Edge Farm as a top-selling feature of the 2016 SAV Sale where he scanned a 365-day REA of 19.1 inches.

SAV RENOVATION 6822

This Renown son was selected by Brooking Angus Ranch and partners from the 2017 SAV Sale where he was a crowd favorite.

SAV GRASS ROOTS 5282

This Renown son was selected by Zeus Farm as the featured lot 1 bull from the 2016 SAV Sale where he scanned a 365-day REA of 18.0 inches.

Renown bulls from the herdsire-producing SAV Blackcap May family...

SAV REMARKABLE 7039 - LOT 123

"Thank you for your hospitality during our visit during your recent sale. Your hospitality is second only to the exceptional cattle offering. The cattle we purchased, lot 20 and my son John's heifer calf, lot 605, looked very good at delivery. I was very pleased with my bull purchase and the price I got him for."

-Brent McRae
Big Dry Angus Ranch

SAV BLACKCAP MAY 1424
Maternal grandam of lot 123 and flush sister to Resource.

- **SAV Remarkable 7039 is everything his name implies – remarkable in terms of phenotype, performance, EPDs, pedigree and cow family strength. He is one of Renown's best sons to date and has potential beyond the breeding pasture. His length, muscle, soundness and unmistakable herdbull presence made him an early favorite. He has enough calving-ease to work on heifers and earned a 205-day weight of 1022 lbs. for a weaning ratio of 108. His pedigree is uniquely linebred to the legendary SAV Blackcap May 4136.**
- **His moderate, perfect-uddered dam by Hesston is a model of efficiency. Her first daughter was retained in the SAV herd.**
- **His grandam is from the same historic flush that brought us Resource. She was selected by Triple W Farms as the $62,500 second top-selling cow in the 2017 SAV Sale.**

- **Five flush brothers with monumental maternal value from the mating of Renown to the model cow for the Angus breed, SAV Emblynette 3301. They are the kind to advance a cowherd and make a positive contribution. Lots 134-135 and lot 137 are recommended for heifers.**
- **Their productive dam served the SAV program for 13+ years. She reigns as the fifth top income-producing cow in SAV history with $1.7 million in receipts on 113 direct progeny selling in past SAV sales to cowmen in 15 states and Canada. She has 15 daughters retained in the SAV herd and multiple herdsire sons to her credit, including Hesston, Momentum, First Prize, Mainstream, Cornerstone, Impact, Intent, Industry, Inspire, Remington and Drover.**

Renown bulls from the SAV Emblynette family...

"Thank you for taking time out of your weekend schedule to show Laura & I around. Putting it simply, AMAZING! The level at which Schaff Angus Valley is at is unmatched. The generational affect that each cow family has there is incredible. It was surreal to me to see the tangible influence of the donor females I have had the privilege to work with. It is beyond comparison! The herd sires were a special treat to see as well. Laura was very impressed with each bull we saw. And she is a tough eye to impress! Wishing you all the best and looking forward to working with SAV on a professional and personal level."

SAV Recharge 3436 is the $80,000 second lead bull from the 2014 SAV Sale, featured at Select Sires AI Stud. He has gained respect from breeders around the world for his dominating siring-ability, stamping his progeny with exceptional thickness, muscle, volume and natural fleshing-ability, along with superb structure and feet quality, large scrotal circumference and calm disposition – an all-around herd-improver.

Recharge is the result of the same proven and predictable mating that created Resource, Renown and many of the greatest young cows in the SAV program. He represents the best of the timeless Rito 707 performance lineage known for efficiency, natural fleshing-ability, thickness, muscle, superb structure, feet quality and authentic Angus breed character.

His legendary dam, SAV Blackcap May 4136, is the Angus breed's most influential genetic contributor and all-time top income-producing cow, generating an astounding $8.5 million in progeny sales on 174 direct sons and daughters averaging $48,896 in past SAV sales to cowmen in 25 states, Canada and Brazil. She has an arsenal of 56 daughters retained in the SAV herd.

The 2018 SAV Sale features 21 direct progeny of Recharge, as well as 15 maternal siblings.

SAV BLACKCAP MAY 4136
The #1 income-producing cow in Angus breed history with $8.5 million in direct progeny sales. She has 56 daughters working in the SAV herd and her sons include Resource, Renown, Recharge, Pedigree, Universal, Seedstock, Sensation, President, Raindance, Rainfall, Rainmaster, Reign, Governor and more.

SAV BLACKCAP MAY 3501
Flush sister to Recharge serving in the SAV embryo program.

SAV SUPERCHARGER 6813
The $235,000 top-selling Recharge bull in the 2017 SAV Sale to Square B Ranch and leased to Select Sires.

- **SAV Circuit Breaker 7136 is a personal favorite and major factor of the 2018 sale season with so many positive attributes to benefit the breed. He is a performance outlier with massive volume and dimension, powerful thickness, expressive muscle shape, natural fleshing-ability, along with perfect feet, large scrotal and gentle disposition. He scored a whopping 205-day weight of 1088 lbs. for a weaning ratio of 115, earning his position among the four top-indexing bulls of the most competitive calfcrop in SAV history. He posts EPDs for weaning and yearling weight in the breed's top 1%. If your goal is to breed great cattle, this bull will simplify the task.**
- **His feminine, broody dam has impeccable udder quality and perfect feet – one of the very best of the class of 2013. She earned a weaning ratio of 108 on 3 calves and will qualify as a Pathfinder. Her first son, SAV Tenacity 5211, was selected by Alta Genetics and Diamond J as a $22,500 feature of the 2016 SAV Sale where he was a top-performing and top marbling bull. A daughter was selected by Big Dry Ranch as a feature of the 2017 SAV Sale.**
- **His awesome grandam is a seventh generation SAV embryo donor and produced a reigning 2017 national champion bull in Australia.**

- Recommended for heifers. This five-star calving-ease bull started light and yet weaned 204 lbs. above breed average – a valuable combination!
- His Pioneer dam has a daughter retained in the SAV herd and top-selling features in past SAV sales to Leonard Newman and Albrecht Ranch.
- His grandam by Net Worth was the top-performing female of the 2008 calfcrop and dam of SAV Powerhouse 2447 at Genex AI Stud.

- A Recharge bull with the conformation and structural design to serve a program for many years.
- His productive dam by Harvestor has two daughters featured in past SAV sales to Jorge Arambula in Mexico and Premier Breeders Group.

SAV PRISCILLA 0162
Maternal grandam of lot 182.

SAV CHARGER 7429 - LOT 183

"A big thank you to you and all your staff for the wonderful hospitality at your sale event last weekend and, of course, the wonderful selection of Black Angus cattle. We always say that we don't know how much better the cattle could be, but you always seem to "ring the bell' each year. We have to narrow down our selections but each year we say – you just can't go wrong. We got our bull home and he quickly settled into his new home. He looks good and seems to like this Missouri 70° temperatures! Thanks again for the opportunity to view your SAV cattle representing your long standing efforts and a lot of work."

-Marshall & Janet Stonum

SAV BESSIE QUEEN 4106

- **SAV Charger 7429 is phenotypically stunning from all angles – super-fronted, thick-topped, square-hipped and muscular, with structural correctness and perfect balance. He has the style, charisma and character of a big-time breeding bull and the pedigree and numbers to back it up. You might remember a bull from ten years back named Brilliance; Charger is that same unique kind of bull with incredible potential.**
- **His awesome dam is sleek-fronted, feminine and angular with a wedge-shaped body design and worlds of milk. She is the third top ribeye female of her calfcrop and has joined the embryo program. Two daughters are retained in the SAV herd and another sold in the 2014 SAV Sale for $13,000 to Tweedy Cattle Co.**
- **His Pathfinder grandam hails from the Bessie Heiress family that produced SAV Heavy Hitter 6347 and was established at SAV in 1946.**

SAV PRIMROSE 9827
Flush sister to the dam of lot 184. She is the dam of SAV Harvest Moon 2244 at Wiwa Creek.

SAV HARVEST MOON 2244

SAV Sensation 5615 is the lead-off bull of the 2016 SAV Sale and the $650,000 top-selling bull of the breed in 2016, capturing the industry by storm to become one of the most popular and widely-used young bulls on the scene. The enthusiasm magnified upon the arrival of his first calfcrop with favorable calving-ease reviews and glowing progeny reports. Sensation delivers calving-ease, with sensational phenotype and maternal presence. His progeny are stylish, super-fronted with length, muscle, balance and superb structural design. Sensation is a great choice for virgin heifer matings.

Sensation is from the same predictable mating that produced the $235,000 SAV Seedstock 4838. His flush sisters were the record-selling heifers in the 2016 SAV Sale and four flush sisters are among the very best 2015 model cows in the SAV herd – all with impeccable udder quality. The pedigree of Sensation combines the two all-time greatest maternal icons, SAV Blackcap May 4136 and SAV Madame Pride 0075 – offering maternal power beyond compare!

His legendary dam, SAV Blackcap May 4136, is the Angus breed's most influential genetic contributor and all-time top income-producing cow, generating an astounding $8.5 million in progeny sales on 174 direct sons and daughters in past SAV sales to cowmen in 25 states, Canada and Brazil. She has an arsenal of 56 daughters retained in the SAV herd, many whom have achieved donor status.

The 2018 SAV Sale features the sensational first offering of 40 progeny by Sensation, along with 15 full and maternal siblings.

His dam

SAV BLACKCAP MAY 4136

The #1 income-producing cow in Angus breed history with $8.5 million in direct progeny sales. She has 56 daughters working in the SAV herd and her sons include Resource, Renown, Recharge, Pedigree, Universal, Seedstock, Sensation, President, Raindance, Rainfall, Rainmaster, Reign, Governor and more.

SAV SEEDSTOCK 4838

This full brother to Sensation is the $235,000 lead-off bull of the 2015 SAV Sale. Pictured here as a yearling.

Thank you to visitors to Schaff Angus Valley this past summer.

- **SAV Senator 7153 is a potential sale-topper with an outstanding genetic and visual package and the power and presence of a real breeding bull. He has been a standout since birth and a favorite of visitors to the ranch – extra-long, thick, stylish and loaded with performance. He earned a 205-day weight of 1086 lbs. for a weaning ratio of 115, ranking among the four top-indexing bulls of his calfcrop and recording EPDs for weaning and yearling weight in the breed's top 1%.**
- **His broody, perfect-uddered dam by Harvestor is a herd favorite with future donor written all over her. Her first daughter was selected by Bogle Ranch as a $14,000 top-selling feature of the 2017 SAV Sale.**
- **His productive grandam is a fourth generation SAV embryo donor and flush sister to the $200,000 SAV Angus Valley 1867 at Genex AI Stud. She has five daughters retained in the SAV herd and is a maternal sister to the elite Blackcap May embryo donors: 4136, 8961, 1782, 1808 and 3525.**
- **His Pathfinder third dam, SAV May 2397, is the third top income-producing cow in SAV history with $1.9 million in direct progeny sales, seven direct sons in AI studs and 28 daughters retained in the SAV herd.**

- **Recommended for heifers. A calving-ease bull with a complete package – balanced in both phenotype and numbers and maternally-driven from the SAV Blackcap May family that was established at SAV in 1945.**
- **His 2-year-old dam is a favorite among the 2015 model cows with beautiful body type and a perfect udder. She has joined the SAV embryo program and has a bright career ahead.**
- **His Pathfinder grandam, SAV Blackcap May 5530, ranks among the six top income-producing cows in SAV history. She has 29 daughters retained in the SAV herd and multiple herdsire sons to her credit.**

Sensational first offering from SAV Sensation 5615...

SAV STARDOM 7066 - LOT 197

"I just wanted to tell you thanks for the tour you gave us here a few weeks ago, I really enjoyed it. I was impressed as always with the cow herd and calf crop. It was awesome to see some of the bulls out on pasture. There were a lot of nice calves but I was really impressed with how the Sensation calves looked. Thanks again for everything and hopefully see you in February."

-Randall Troyer

- **Recommended for heifers. A calving-ease bull with smoothness, structural balance and plenty of performance. He started with a low birth weight and weaned off 207 lbs. above breed average for 205-day weight, as his dam's first calf.**
- **His feminine, nice-uddered 2-year-old dam by Hesston is the fourth top marbling female of her calfcrop.**
- **His grandam is a forage-efficient outcross and comes from five consecutive generations of SAV embryo donors.**

Sensational first offering by Sensation from the SAV Madame Pride family...

"Thank you for taking the time to give my mom and I a tour of the farm. Your hospitality and information was greatly appreciated. We really enjoyed getting to know you and look forward to continuing to grow my herd with SAV genetics for years to come. After looking at the calves I think the Madame Pride cow family, especially 0075, is what route I want to go next. I know she will add power, maternal and just an overall feminine look to my herd."

SAV Seedstock 4838 is the $235,000 lead-off bull from the 2015 SAV Sale where he was admired for his superior structure and herdbull properties – both phenotypically and on paper. He posted a 205-day weight of 1025 lbs. and a 365-day weight of 1644 lbs. and scanned a 365-day REA of 17.1 inches. His pedigree uniquely blends the two all-time greatest maternal icons, SAV Blackcap May 4136 and SAV Madame Pride 0075. This identical mating produced SAV Sensation 5615, who was the lead-off and $650,000 top-selling bull in the 2016 SAV Sale.

Seedstock progeny are highly favored across the country and have put him on the fast track to stardom with their superb structure, award-winning phenotype and totally-complete design, coupled with modest birth weights. His sons are thick-topped and muscular with soundness and structural integrity. His daughters have beautiful maternal presence and the look of futuristic producers.

His legendary dam, SAV Blackcap May 4136, is the Angus breed's all-time top income-producing cow, generating an astounding $8.5 million in progeny sales on 174 direct sons and daughters in past SAV sales to cowmen in 25 states, Canada and Brazil. She has an arsenal of 56 daughters retained in the SAV herd, many whom have achieved donor status.

The 2018 SAV Sale features 42 progeny of Seedstock, along with 15 maternal siblings and three full brothers.

His dam

SAV BLACKCAP MAY 4136
The #1 income-producing cow in Angus breed history with $8.5 million in direct progeny sales. She has 56 daughters working in the SAV herd and her sons include Resource, Renown, Recharge, Pedigree, Universal, Seedstock, Sensation, President, Raindance, Rainfall, Rainmaster, Reign, Governor and more.

- **Their beautiful, high maternal dam is a third generation embryo donor and flush sister to SAV Elba 1400 and SAV Elba 1401. She has 12 progeny selling in past SAV sales to cowmen in six states.**
- **Their legendary grandam, SAV Elba 1094, is one of the all-time top income-producing cows in SAV history and has 31 daughters retained in the SAV herd.**

Seedstock bulls from the SAV Madame Pride family...

SAV STANDOUT 7866 - LOT 241

"First and foremost we want to say THANK YOU to the entire SAV family & program!! We have been purchasing SAV genetics since 1998 and in the fall of 2015 Kelly gave us an opportunity to take our Angus business in a new direction with the purchase of SAV Madame Pride 9803 for $20,000. Since purchasing this Elite Donor she has produced 370 embryos from the fall of 2015 till the fall of 2016 generating an income of $237,000. Her embryos and pregnancies have sold around the globe and throughout the USA. Kelly, we are so "grateful" & couldn't be more pleased with your genetics and the program at SAV."

SAV Registry 2831 has awestruck the Angus world in his mature physical form. He is truly a sight to behold – fault-free in structure and abounding with thickness, muscling, bulging-hindquarters, capacity, natural fleshing-ability and traditional Angus breed character, along with exceptional docility and perfect feet. Registry excels at the fundamental basics that make good cattle and brings a timeless performance lineage to a maternally-superior cow family.

His dam is the maternal matriarch, SAV Madame Pride 0075, who served the SAV program for 17+ years and reigns as the second top income-producing cow in SAV history, generating $3.6 million in receipts on 142 progeny averaging $25,194 in past SAV sales to cowmen in 21 states, Canada and Brazil. She has 41 direct daughters retained in the SAV herd and multiple herdsire sons to her credit.

Registry sired the $235,000 SAV Seedstock 4838 and the $650,000 SAV Sensation 5615, the lead-off bulls from the 2015 and 2016 SAV sales. He also sired the two top-selling heifers in the 2016 SAV Sale. His daughters in production are making outstanding cows with impeccable udder quality.

The 2018 SAV Sale will feature the progeny and influence of Registry, as well as six maternal siblings.

His sire

RITO 707 OF IDEAL 3407 7075
This now-deceased breed legend has propelled the best of the timeless Rito 707 performance lineage. His herdsire sons include Registry, Resource, Renown, Recharge, Rito 9969 and Eliminator. His influence is heavily represented throughout this sale offering.

SAV REGISTRY 2831
Registry in the breeding pasture at 5 1/2 years of age.

SAV RECEPTOR 4837
This Registry son was selected by ZWT and John Kiker as a feature of the 2015 SAV Sale. Full brothers sell as lots 253-255.

SAV RESIDUAL 4835
This Registry son was selected by Vollmer Angus Ranch from the 2015 SAV Sale. Full brothers sell at lots 253-255.

Fantastic full brothers to Seedstock and Sensation...

SAV BEETHOVEN 7327 - LOT 253

"Momentum continues to walk the walk. We now have at least 50 of his daughters in production. Our first SAV Remainder 4840 calf crop is phenomenal. I did weigh one bull calf at 152 days and he weighed 688 lbs. That is an average of over 4.5 pounds per day. These Remainder calves are all going to push the scales down. SAV Remainder 4820 is more than anyone could hope for in a pasture bull. We flushed to SAV Sensation, AI bred to SAV Renown, SAV Momentum, and SAV Angus Valley. Given the phenotype of the current Remainder calf crop there is nothing left to speculate about. I am confident that 0075 and 4136 will handle the udders on his daughters. Certainly, 3301 will have her say too. I could not be more pleased with the progress Bramlett Angus has made breeding Schaff genetics over the past 10 years."

-Larry Bramblett
Bramblett Angus

SAV Pedigree 4834 is the $725,000 world-record-selling bull from the 2015 SAV Sale to Herbster Angus Farms. He brings pedigree excellence, phenotype, performance, EPDs and cow family strength together in one package. This athletic stunner presents calving-ease progeny who are stylish and smooth-patterned with added length and extra frame. His daughters have gorgeous femininity and the maternal quality to become future trendsetters.

His legendary dam, SAV Blackcap May 4136, is the Angus breed's most influential genetic contributor and all-time top income-producing cow, generating an astounding $8.5 million in progeny sales on 174 direct sons and daughters averaging $48,896 in past SAV sales to cowmen in 25 states, Canada and Brazil. She has an arsenal of 56 daughters retained in the SAV herd, many whom have achieved donor status.

The 2018 SAV Sale features 15 progeny of Pedigree, along with his valuable service and 15 maternal siblings.

His dam

SAV BLACKCAP MAY 4136

The #1 income-producing cow in Angus breed history with $8.5 million in direct progeny sales. She has 56 daughters working in the SAV herd and her sons include Resource, Renown, Recharge, Pedigree, Universal, Seedstock, Sensation, President, Raindance, Rainfall, Rainmaster, Reign, Governor and more.

His sire

SAV PIONEER 7301

The $65,000 top-selling bull from the 2008 SAV Sale. He is a proven Pathfinder Sire known for his outstanding daughters and great maternal traits. He is the sire of Pedigree, Platinum, Potential, Paramount, Pursuit, Purebred and many more.

SAV ANCESTRY 6090

The $70,000 top-selling Pedigree son from the 2017 SAV Sale to Square B Ranch and Select Sires AI Stud.

LOT 266

"Congratulations on an amazing sale. I brought my oldest son, Austin, and our new Cattle Manager, Zach Brookman to the sale. We all enjoyed ourselves and were very impressed. Next time we will come earlier to see more and learn more. SAV Pattern is doing well and the whole crew/family likes him immensely. We have been combing on him and he has settled in very well. Today we had him semen tested and he passed the BSE without any issues. We also had a heifer in heat in the fall herd so he spent the day with her. Everything was real good. He showed very good interest and successfully bred her several times. We are truly excited to have him here and we think he will be a great asset to our program."

-Brent Vieselmeyer

+4.8	+82	+22	+139	+1.03

SAV Property 3121 has been a ranch favorite since calfhood with his outstanding phenotype and soaring performance levels. He earned a 205-day weight of 1003 lb. for a weaning ratio of 114 and posted a 365-day weight of 1647 lbs. for a yearling ratio of 111, scanning a 365-day ribeye of 17.1 inches. He went on to be a $65,000 top-selling feature of the 2014 SAV Sale where he was a crowd favorite. Now his progeny are making the same favorable impression with their chart-topping performance, thickness, muscle and powerful structure. They have earned him proven EPDs for weaning and yearling weight in the breed's top 1% and run with the best of any sire group.

His second generation Pathfinder dam, SAV Dora 1166, records a weaning ratio of 104 on 5 calves. She is a feminine, productive cow with a world-class udder and always brings home a top calf – keeping with the tradition of her Pathfinder dam who records a weaning ratio of 106 on 8 calves.

The 2018 SAV Sale features the progeny of Property and a maternal brother.

His Pathfinder dam

SAV DORA 1166

The second generation Pathfinder dam of SAV Property 3121. She records a progeny weaning ratio of 104 on 5 calves.

His sire

SAV PRIORITY 7283

Highly proven multi-trait sire at Genex AI Stud from the mating of Final Answer to the elite Pathfinder, SAV Blackcap May 5530.

Tawyna Teichert explaining the bulls to Rodney!

SAV Cutting Edge 4857 is the $260,000 second top-selling bull from the 2015 SAV Sale where he was a phenotypic standout and crowd favorite. He is a performance powerhouse, earning a 205-day weight of 1032 lbs. and a 365-day weight of 1643 lbs. His progeny have captured the attention of the Angus world with their phenotypic power, explosive growth and breed-leading performance. His sons were a popular, top-selling sire group in the 2017 SAV Sale where a daughter was the top-selling heifer.

His powerful dam, SAV Blackcap May 5530, records a weaning ratio of 108 on 5 calves. She has distinguished herself as an outlier in the Angus breed for her combination of muscle and maternal and has assembled a production record that few could hope to achieve. She reigns among the six top income-producing cows in SAV history with $1.7 million in receipts on 64 progeny averaging $25,850 in past SAV sales to cowmen in 18 states, Canada and Brazil. She has 29 daughters retained in the SAV herd and multiple herdsire sons to her credit.

The 2018 SAV Sale features 55 progeny of Cutting Edge and 23 maternal siblings!

His Pathfinder dam

SAV BLACKCAP MAY 5530
A powerful, potent, productive Pathfinder with breed-impacting influence. She has 29 direct daughters working in the SAV herd and her herdsire sons include Regard, Cutting Edge, Brand Name, Priority, Robust, Reproduction and Ignition. 23 direct progeny are featured in this sale.

SAV CUTTING EDGE 4857
SAV Cutting Edge 4857 pictured here in yearling form as the second top-selling bull in the 2015 SAV Sale.

SAV STERLING 6067
This Cutting Edge son was selected by Stauffer Ranches as a performance standout from the 2017 SAV Sale.

SAV CUT ABOVE 6271
The $175,000 top-selling Cutting Edge son in the 2017 SAV Sale to Cross Creek Farms, being used in the SAV breeding program.

SAV BOOT CUT 6210
The second top-selling Cutting Edge son in the 2017 SAV Sale to Mound Creek Ranches.

SAV COMMITMENT 7304 - LOT 282

"You did it again! The sale was very professional, everything in perfect order. I don't want to repeat my observation over a period of years, but I can't help repeating basically the same results as last year. What a Great Job – Well done! It's amazing to see what you have accomplished with some of the cow-lines that trace back to my efforts. I know it's a tough job to be at the fore-front, however, keep it up!"

-Joe & Ruby Schaff

- **SAV Connection 7294 represents herdbull material at its finest. This eye-catcher by Cutting Edge is long-bodied, deep-ribbed and well-muscled with superior conformation. He presents outstanding EPDs in profit-driving traits and is backed by one of the strongest maternal lines in the breed.**
- **His magnificent dam by Resource has striking femininity, ideal body type and impeccable udder quality. She is the #1 ribeye EPD cow in the entire SAV herd and serves as a seventh generation embryo donor in the IVF program. A son, SAV Textbook 5115, was selected by Casa Branca Stud in Brazil as the #1 IMF bull in the 2016 SAV Sale. Another son was selected by David Rael as a feature of the 2017 SAV Sale.**
- **His heavy-milking grandam by Pioneer has assembled an outstanding production record. A son, SAV Infusion 4247, scanned a 365-day ribeye of 19.5 inches and was selected by Orville Skogen as a top-selling feature of the 2015 SAV Sale.**

- **SAV Continent 7207 is a blockbuster performance bull with outlier thickness, muscle, bone and power. He earned a 205-day weight of 1028 lbs. for a weaning ratio of 109, ranking among the ten top-indexing bulls of his entire calfcrop. His EPDs for weaning and yearling weight place him at the front of the Angus population – a major herd-improver and profitmaker.**
- **His angular, wedge-shaped dam by Resource has a beautiful udder with abundant milk. She has joined the SAV embryo program and earned a weaning ratio of 105 on 2 calves. His heavy-milking grandam by Density is a maternal masterpiece and major headliner donor.**

+5.5	+70	+20	+116	+1.03

SAV International 2020 is the $400,000 record-selling lot 1 bull from the 2013 SAV Sale. He has made it to the pros and become one of the highly respected sires in the Angus breed. He is an ideal beef bull – thick, heavy muscled, stout-rumped, perfect-footed with power, performance and superior structure.

International progeny are consistently stamped with exceptional thickness, muscle, stoutness and breed-leading performance. They are standouts at a young age and rise among the top of their calfcrops everywhere he is used. His sons scan exceptional ribeyes and are always favorites of commercial cowmen.

His fifth generation Pathfinder dam, SAV Emblynette 5483, is the $250,000 top-selling female in the 2016 SAV Sale. She balances a birth ratio of 95 with a weaning ratio of 104 on 8 calves. She combines femininity, superb body-type, udder quality and ideal foot structure, with fertility, longevity and maternal productivity. She reigns among the four top income-producing cows in SAV history with $1.8 million in direct progeny sales. She has 15 daughters retained in the SAV herd and another was the 2016 National Angus Foundation Heifer.

The 2018 SAV Sale features 70 direct progeny of International and five maternal siblings.

His Pathfinder dam

SAV EMBLYNETTE 5483

The fifth generation Pathfinder dam of International and featured top-selling female in the 2016 SAV Sale. She has tallied $1.8 million in progeny sales and has 15 daughters working in the SAV herd. Her influence is strongly represented.

His sire

SAV HARVESTOR 0338

This performance powerhouse and record-selling bull from the 2011 SAV Sale has chiseled his name in stone as a true breed-changer. His legacy continues at SAV and around the world.

SAV INTENSE 4304

This International son scanned the largest ribeye in SAV history at 20.6 inches and was selected by ST Genetics as s feature of the 2015 SAV Sale. Full brothers sell as lots 330-334.

SAV INSTINCT 4258

This International son was selected by Genex AI Stud, Albrecht and Penz Angus as a feature of the 2015 SAV Sale.

SAV UNIVERSAL 4038

The featured lot 1 and top-selling International bull in the 2015 SAV Sale to Payne Angus.

- **Five fabulous flush brothers who put it all together – pedigree, phenotype, performance, EPDs and cow family strength that is unmatched in the business. They demonstrate consistent power, muscle, pounds and structural integrity – a breed-impacting flush! A full sister is the #1 weaning EPD cow in the SAV herd and full brothers include SAV Infinity 4145, SAV Interest 5043, as well as SAV Innovation 5125 at ST Genetics.**
- **Their phenomenal dam is a herdbull producer and herd leader, earning a weaning ratio of 112 on 4 calves. She has three daughters retained in the SAV herd, five top-selling progeny in past SAV sales and nine outstanding sons featured in this event.**
- **Their 16-year-old Pathfinder grandam, SAV May 2397, is the third top income-producing cow in SAV history. She has seven direct sons working in AI studs, 28 daughters retained in the SAV herd and 118 progeny in past SAV sales.**

SAV IN DEMAND 7898 - LOT 324

"Thanks for a great day of touring your one of a kind herd today! I thought the day was awesome with a day of great functional cattle with consistency and real world value. As always it was more of an honor of being surrounded by really great people! Your level of knowledge and determination to stay the course is so refreshing during this time frame within our industry."

-Jason Upchurch
Ingram Angus

SAV MAY 2397
Pathfinder grandam of lots 321-325, also represented in the maternal pedigree of lots 326-343.

"We got the new heifers home and they're doing well. They've both cycled and we're getting ready to start spring breeding & ET work. Kelly…I hope there's some consulting included in the price of that Charlo X 2397 heifer! We'd like to take advantage of the ten straws of Pedigree semen along with ten straws of Seedstock. I'd be willing to purchase ten straws of Sensation and should be on your waiting list for President, so I'm anxious to hear when something is available on him. I also want to visit with you more about that bull as well as his brothers… that was a nice set of bulls! All four of the heifers we purchased last year have babies on the ground and are doing well. We got three heifers and one bull plus one ET heifer calf out of the Madame Pride 5812 heifer. I'm planning to flush her again this spring as well as the 5401 full sister to International. The 3507 has so far been my favorite SAV female we've brought home. (Until this year, obviously!) I think 5812 and 5401 will step in right alongside her in terms of production. 3507 had two successful flushes last fall – one flush to Pedigree and one to Morton County. Morton County is still making semen, and we have pregnancies confirmed for the fall, including ET babies out of the SAV Emblynette 3507 Resource daughter. I'm stoked about seeing those babies hit the ground."

-Christopher Martin

- **Double feature flush brothers with powerful scope, muscle-shape, volume and dimension – the rancher's kind. They are led by SAV Immense 7467, a scale-crushing performance bull who dominates his peers with immense stoutness, muscle and sheer power. He earned a 205-day weight of 1044 lbs. Maternal brothers are featured as lots 93 and 384.**
- **Their front pasture dam is the second lowest birth EPD cow in the SAV herd and is from the same historic flush that produced Resource. She balances a birth ratio of 96 with a weaning ratio of 102 on 5 calves. She is phenotypically flawless in terms of femininity, body type and udder quality. She serves as a fifth generation SAV embryo donor and taking center-stage. Her sons have highlighted past SAV sales to Powell Farms, Lynn Ritz, Resing Cattle and Buford Ranches.**

- **A herdsire candidate by International with completeness and quality – backed by a maternally-superior cow family. A full sister was selected by Bogle Ranch as a top-selling feature of the 2017 SAV Sale.**
- **His productive dam serves as a sixth generation SAV embryo donor. Her first son, SAV Testament 5218, was selected by Lawson Family Angus as a feature of the 2016 SAV Sale.**
- **His grandam is a flush sister to Resource and a herd favorite. She is the dam of SAV Intense 4304, who scanned a record 365-day ribeye of 20.6 inches and was selected by ST Genetics from the 2015 SAV Sale.**

SAV BLACKCAP MAY 3127
Dam of lot 334 and maternal sister to lots 330-333.

International bulls from SAV Blackcap May 3501...

SAV INDEPENDENCE 7578 - LOT 335

"Your cattle seem to get more impressive every year, if that is possible. I follow your herd very closely. We continue to use 004, Final Answer, Bismarck and Net Worth thru AI. The results are excellent. International and Resource will be used next. We are a small herd of 50 females. We try to concentrate on maternal, structure and soundness."

-Bill Jackson

SAV BLACKCAP MAY 3501
Dam of lots 335-337.

SAV RENOWN 3439
Flush brother to the dam of lots 335-337. This sire headliner at Genex AI Stud is the lead-off bull from the 2014 SAV Sale.

SAV RECHARGE 3436
Flush brother to the dam of lots 335-337. He is the second lead-off bull from the 2014 SAV Sale and a highly respected sire.

- **Genetic treasures with intense performance and maternal power from the mating of International to SAV Blackcap May 3501. They are the herdbull kind – thick, heavy-muscled, deep-ribbed, stock bulls, bred and built for range country.**
- **Their amazing dam is a full sister to Resource, Renown and Recharge. She is a herd favorite – flawless in terms of femininity, udder quality and body type. A son, SAV Technique 5120, at Alta Genetics was a top-selling feature of the 2016 SAV Sale. A daughter was selected by Albrecht and Penz Angus as a feature of the 2017 SAV Sale.**

SAV TECHNIQUE 5120
Maternal brother to lots 335-337 selected by Albrecht and Penz Angus and Alta Genetics as a top-selling feature of the 2016 SAV Sale where he scanned a 365-day ribeye of 19.5 inches.

This International son out of SAV Madame Pride 1171 is the 2017 Grand Champion Bull at the Melbourne Australia National Show for the Richard & Susan Duddy family. *Congratulations!*

Flush brothers by International from SAV Blackcap May 1804...

SAV INSISTENCE 7750 - LOT 338

"We bought SAV Pioneer 0521 at your 2011 sale and he has been a tremendous bull. Our ranch is located just east of the Alberta/Saskatchewan border. We have exposed him on 90 cows on a 1400 acre bush pasture along with a couple younger bulls the last 3 years and when we DNA the calves he has sired the majority. Amazing! We keep some of his best sons to use on our commercial herd and we sell about 35 bulls a year. His sons are always the first to go."

-Brian & Lisa Coutts
Flowing Springs Ranch

- SAV Incentive 7021 is a personal favorite of the 2017 calfcrop representing everything we look for in an ideal breeding bull. He is an attractive, super-fronted bull who catches your eye with his length, muscle, volume and athletic blend of balance and style. He earned a 205-day weight of 978 lbs. He is backed by some of the strongest maternal cows in the business.
- His beautiful, productive dam by Bismarck has a superb udder and serves in the SAV embryo program. She produced the #1 ribeye female of the 2016 calfcrop and a feature bull in the 2016 SAV Sale to John Brummell.
- His second generation Pathfinder grandam produced the lot 1 bulls in both the 2006 and 2008 SAV sales. She has 18 daughters retained in the SAV herd and 98 progeny in past SAV sales. She is a maternal sister to the record-selling dam of Harvestor.

- **Genetic opportunity to select flush brothers from the mating of International to the fourth generation embryo donor, SAV Emblynette 2184. They are stout, rugged-built, performance bulls with consistent thickness, muscle, volume and structural integrity – built for range country and built to last. A full brother, SAV Introduction 5251, was selected by Gottsch Bros. as a top performing feature of the 2016 SAV Sale.**
- **Their feminine, angular, broody dam by Rito 9969 is a herd favorite with a bright future ahead. She has four daughters retained in the SAV herd.**
- **Their second generation Pathfinder grandam is maternal sister to Predominant. She records a weaning ratio of 106 on 7 calves. She has four daughters retained in the SAV herd and four top-selling progeny in past SAV sales, including SAV Resolve 3210, SAV Rejoice 4183 and SAV Point Guard 6250.**

SAV INTRODUCTION 5251
Full brother to lots 349-357 selected by Gottsch Bros. as a top-performing feature of the 2016 SAV Sale.

SAV MADAME PRIDE 3256
Dam of lots 360-362. She is the #1 yearling EPD cow in the SAV herd.

This one-of-a-kind sire is a valued breeding tool in the SAV sire lineup, reintroducing the Emulation line of cattle who have led the industry for fertility, longevity, udder and feet quality for decades. He is backed by linebred predictability to consistently transmit exceptional length and balance with explosive vigor and outlier docility. He combines this with moderate birth weight, high marbling and beautiful daughters who excel in udder quality and are designed for longevity.

XXP is the ultimate product of years and generations of strategic genetic selection, with a 28.9% inbreeding co-efficient from a sire/daughter mating by the proven Pathfinder Sire, N Bar Emulation EXT, who is the most widely used sire in breed history. His Pathfinder dam earned a strong herdbull-producing track record. His Pathfinder grandam is a maternal sister to N Bar Primrose 2424, the famous matriarch who appears twice in XXP's immediate pedigree.

The progeny of XXP are strong performers with distinct length of spine, levelness of hip and front-end extension and have exceptional docility. They have earned him an impressive progeny weaning ratio of 102 and a progeny yearling ratio of 103 across the industry, along with a progeny IMF ratio of 106, combined with a strong marbling and carcass weight values.

The 22 direct progeny of XXP showcased in the 2018 SAV Sale will be a highlight of the 2018 sale season.

His Pathfinder dam

N BAR PRIMROSE Y3051

The second generation Pathfinder dam of XXP pictured at 18-years of age.

SAV EXTENSION 6856

The lead-off and top-selling XXP son from the 2017 SAV Sale to Ingram Angus and featured at ST Genetics.

Thank you to all our family, friends, neighbors, sale staff and crew who helped make the 2017 SAV Sale a success.

Thank you to all those who attended the 2017 SAV Sale.

Outstanding outcross options by XXP from SAV Blackcap May 1782...

SAV ELATION 7899 - LOT 379

"Congrats again on yet another record breaking sale! Everyone at SAV are such good folks & great to work with."

-Scott Crawford

SAV BLACKCAP MAY 1782
Dam of lots 379-381.

SAV MAY 2397
Pathfinder grandam of lots 379-381 ranking among the three top income-producing cows in SAV history. She has 28 daughters retained in the SAV herd and seven direct sons in major AI studs.

SAV MAY 7238
This prolific Right Time daughter is the third dam of lots 379-381. She is the dam of Density and Providence and her influence is heavily represented in the SAV program.

- **The ground work is complete, the genetics are laid and the timing is right for a phenomenon to take the Angus breed in the direction that defined its purpose – reintroducing the Emulation line of cattle who have led the industry for fertility, longevity, udder and feet quality for decades. This incredible flush brings grass roots foundation Angus genetics front and center, blending them with the greatest maternal cow line identified in the Angus breed. They are led by SAV Elation 7899, an elite cuvebender and potential sale-topper with all the qualities we strive to produce – attractive, extremely long-bodied, thick and muscular with an athletic, sound structure and docile temperament. He does all this in a low birth weight package that is outcross to most bloodlines – imagine the possibilities here!**
- **Their phenomenal dam is a herdbull producer and herd leader, earning a weaning ratio of 112 on 4 calves. She ranks as the #2 weaning EPD cow in the SAV herd, next only to her daughter. Her powerful body type, udder quality, impeccable feet and consistent top production have given her elite status in the SAV herd. Five progeny have averaged $26,800 in past SAV sales, nine progeny are featured in this event and three daughters are retained.**
- **Their 16-year-old Pathfinder grandam, SAV May 2397, is the third top income-producing cow in SAV history. She has seven sons in major AI studs, 118 progeny highlighting past SAV sales and 28 daughters retained in the SAV herd, including: 4136, 8961, 1782, 1808 and 3525.**

- **Recommended for heifers. SAV Expertise 7028 is a major AI stud candidate and elite curvebender who excels from start to finish – low birth, top performance, incredible phenotype, docility and cow family strength in an outcross package. He has enormous breed-impact potential and is on the radar of the Angus world. He started life with an early gestation and low birth weight of 75 lbs. for a ratio of 91 and never looked back, earning a 205-day weight of 1003 lbs. for a weaning ratio of 106 – the true definition of a curvebender!**
- **His front pasture dam is the second lowest birth EPD cow in the SAV herd and is from the same historic flush that produced Resource. She balances a birth ratio of 96 with a weaning ratio of 102 on 5 calves and serves as a headliner in the SAV embryo program. Three sons have averaged $17,000 in past SAV sales to Lynn Ritz, Powell Farms, Reisig Cattle and Buford Ranches. Multiple progeny are featured in this event, including lot 93-SAV Lineman 7075, and lot 328-SAV Immense 7467.**

- Genetically identical flush brothers with total outcross genetics for the Angus gene pool. These rugged-made, long-bodied, muscular bulls have performed well and should thrive in range country.
- Their beautiful, deep-ribbed, heavy milking Pathfinder dam is a forage-efficient outcross. Three daughters are retained in the SAV herd and four progeny have sold in past SAV sales.

SAV PRIMROSE 4281
Maternal grandam of lots 389-391. She is the dam of SAV Rifleman 2811 and SAV Blacksmith 2815 at Alta Genetics AI Stud.

SAV ABIGALE 7006
Dam of lot 388.

SAV Reference Sire - Coleman Charlo 0256...

This unique SAV herdsire offers proven calving-ease with thickness and maternal value...
Outcross genetics from the timeless Rainmaker sire lineage...

"The interest in President has been unbelievable and I have had numerous calls from people that have been out there to tour that are blown away by the bull. I can't wait to see him in person again and get him back in stud."

-Brittany Barker-Hostetler
Herbster Angus Farms

Charlo was selected to join the SAV sire lineup as a truly unique and proven sire with destiny to become one of the most influential sires the breed has ever known. No other sire in history has been identified to combine proven calving-ease with his degree of thickness, fleshing-ability, carcass quality and authentic Angus type. In addition, Charlo is a large scrotal, highly fertile sire with superior semen quality and excellent libido. He is a featured member of Select Sires AI Stud, backed by the time-tested sire lineage that traces to Basin Rainmaker 654X, the legendary high maternal Pathfinder Sire who is the most impacting sire ever imported to Argentina.

Charlo's $50,000 valued dam is a full sister to the famous Pathfinder SAV Abigale 8213 and from the same family as SAV Bismarck 5682, SAV Mandan 5664, SAV Adaptor 2213 and SAV Eliminator 9105. His maternal grandam is the high income-producing SAV Abigale 6062, who ranks as the breed's # 1 Ribeye EPD cow of her generation, more than two decades after her birth, with 94 progeny evaluated by ultrasound.

Charlo sired the world-record-selling sire group of bulls at the 2017 SAV Sale, who have taken the industry by storm. The 2018 SAV Sale features 64 direct progeny of Charlo – an unprecedented opportunity!

SAV PRESIDENT 6847
The world record-selling bull in Angus breed history and record top-selling bull in the 2017 SAV Sale to Herbster Angus Farms.

SAV GOVERNOR 6844
The leading calving-ease bull and fourth top-selling bull in the 2017 SAV Sale where he was a member of the world record-selling flush.

SAV RAINDANCE 6848
The popular third top-selling bull in the 2017 SAV Sale to ST Genetics.

SAV RAINFALL 6846
The second top-selling bull in the 2017 SAV Sale to Square B Ranch, featured at Select Sires AI Stud.

SAV REIGN 6845
A member of the world record-selling flush of bulls to sell at public auction, selected by Ingram Angus and leased to Genex AI Stud.

SAV 654X RAINMASTER 6849
This member of the world record-selling flush of bulls from the 2017 SAV Sale was selected by Ingram Angus and is featured at ABS Global.

Outstanding outcross calving-ease options by Charlo from SAV Madame Pride 3256...

SAV 654X RAINMAKER 7123 - LOT 392

"I just read the recent American Angus Journal and looked thru the sale stats. That result of yours is mind boggling. Totally inspirational in fact. Well done to you and Bob and the team. You just keep churning them out. I am fascinated that you used the Charlo bull. I have always been drawn to the marketing image of him. Anyway, well done on a richly deserved success once again."

-Ross Thompson
Millah Murray, Australia

SAV MADAME PRIDE 3256
Dam of lots 392-394. The #1 yearling EPD cow in the SAV herd.

- **Recommended for heifers. Fabulous full brothers who will highlight this event, bringing the proven outcross calving-ease genetics of the respected Rainmaker sire lineage together with the best of the maternally-driven Madame Pride cow family. They are led by lot 392, who presents herd-changing type, outlier thickness, muscle-shape and authentic Angus breed character in a low birth/high performance package. He earned a 205-day weight of 1009 lbs.**
- **Their powerhouse dam by Resource is a genetic trendsetter and the #1 yearling and #2 weaning EPD cow in the entire SAV herd. She is a seventh generation SAV embryo donor. She earned a weaning ratio of 107 on 3 calves and will qualify as a Pathfinder. A son, SAV Westward 5195, was selected by Premier Breeders Group as a top-selling feature of the 2016 SAV Sale.**
- **Their heavy milking grandam, SAV Madame Pride 0413, has four daughters retained and multiple herdsire sons, including SAV Influence 4043 at Alta Genetics AI Stud.**

SAV 654X RAINMAKER 7335 - LOT 412

"If I use Charlo again, I'm going to put him on my Bismarck, Beacon, Radiance, and Angus Valley types. I'm very interested to see the result of those matings. Blending the lines, front, athletism and feminine power with Charlo's massive rib dimension, thickness and moderate efficiency. I would think that would take the breed to places we've never seen. I was inquiring about your lot 396 Finalist bull. I loved his picture and love his Net Worth grandam. I love what the Net Worth females offer and continuously try to introduce great daughters whenever I can. I'm looking to inquire to the new owner about buying some semen."

-Darren Schrag

SAV BLACKCAP MAY 1782
Maternal grandam of lot 412.

SAV INNOVATION 5125
Flush brother to the dam of lot 412 selected by ST Genetics as a feature of the 2016 SAV Sale.

SAV INTEREST 5043
Flush brother to the dam of lot 412 selected by Rex Schwartz as a feature of the 2016 SAV Sale.

BIRTH	WEAN	MILK	YEARLING	SCROTAL
+1.2	+68	+15	+120	+1.23

Diamond in the Rough is a versatile, total outcross SAV herdsire with proven industry-leading genetics for calving-ease, performance and carcass merit – an all-around balanced sire of magnitude. He was selected by SAV as the top-performing pick of his calfcrop with interests later selling to Genex AI Stud and Derflinger Ranch.

This uniquely-bred sire combines moderate birth with added performance, docility, scrotal size and carcass value. His Pathfinder Sire served in the ORIgen AI Stud and is the result of mating Pathfinder parents. His Pathfinder Dam combines a progeny birth ratio of 92 with a weaning ratio of 107 on four natural calves and was the $32,000 top-selling female of the 2014 Diamond Dot Sale. She stems from generations of proven low birth cows and is sired by Diamond Payweight 738N, who sold for export to Carlos Ojea Rullan in Argentina. A son of Diamond in the Rough was the $90,000 record-selling bull of the 2013 Diamond Dot Sale and recently joined the Select Sires AI Stud.

The Diamond in the Rough progeny at SAV have generated tremendous interest and appreciation from leading cattlemen for their impressive display of explosive growth, massive dimension and outlier performance, along with exceptional docility.

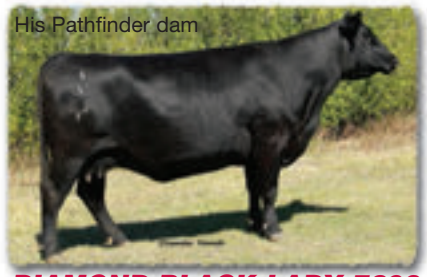

The 2018 SAV Sale features the fantastic first offering by Diamond In The Rough with 24 direct progeny selling.

"Thank you for hosting the visitors from Argentina and Brazil in June. They enjoyed visiting your ranch, learning about the operation & viewing the quality cattle. Also, thank you for your generosity in serving lunch to the groups. Your time & hospitality is greatly appreciated."

-GENEX AI Stud

His Pathfinder sire

DIAMOND JUSTICE 901S
Pathfinder sire of Diamond In The Rough.

His Pathfinder dam

DIAMOND BLACK LADY 7206
Pathfinder dam of Diamond In The Rough and all-time top-selling cow from Diamond Dot.

"Seems like a lot of pictures get taken now a-days, but few make it to be displayed. I have one displayed on my wall. It helps me on days that my cows seem far away. Good luck to Kourtney at the fair this weekend."

-Mark F Crawford
Crawford Black Cow Ranch

Congratulations to Kourtney Schaff on her Supreme Champion Heifer Overall Breeds at the 2017 Morton County 4-H Achievement Days with SAV Abigale 6121.

Special thanks to Starion Bank for their support of Kourtney and the Morton County 4-H Program.

Versatile outcross options by Diamond from breed icon, SAV Blackcap May 4136...

"Schaff has transferred the three animals to M4 Ranch and have retained some ownership in 5450. I followed his pedigree back a ways and found the 4136 cow in his dam's background and the Abigale family in both his dam and sires background. I think this young bull may be as good or better than some of the highly touted bulls. Bob Watkins is smarter than most cattle folks we've known."

-Herb Murray

- **A formula of success and highlight flush of the 2018 sale season, resulting from the fresh outcross blood and vigor of Diamond blended with the maternal supremacy of the legendary SAV Blackcap May 4136. It results in a new era of performance diversity and genetic potency to stimulate the Angus gene pool. This flush is led by lot 428, a breed-changer ranking #1 for carcass weight and ribeye, #3 for weaning EPD and #5 for yearling EPD of the entire sale offering. He earned a 205-day weight of 1072 lbs. and sports EPDs for weaning and yearling weight in the breed's top 1%. Lots 430-431 are unique and valuable calving-ease options.**
- **Their dam is the Angus breed's most influential genetic contributor and all-time high income-producing cow with $8.5 million in direct progeny sales. She has 56 daughters retained in the SAV herd and 174 progeny featured in past SAV sales. Her herdsire sons include Resource, Renown, Recharge, Heritage, Universal, Pedigree, Seedstock, Sensation, Revolution, President, Rainfall, Raindance, Governor, Rainmaker, Reign and Extension.**

- **Blockbuster flush brothers with explosive performance, massive dimension and monumental outcross breeding value from the mating of Diamond to the elite Pathfinder, SAV Emblynette 2369. A flush sister is featured as lot 657.**
- **Their Pathfinder dam never fails to impress with her awesome phenotypic presence, femininity and power. She records a weaning ratio of 106 on 4 calves and reigns as the #1 205-day weight and #1 marbling female of her calfcrop. She is a new generation headliner donor in the SAV embryo program. Her sons have highlighted past SAV sales to Jon Schlender and Bickle Cattle Co.**
- **Their Net Worth grandam, SAV Emblynette 7566, is a world-class producer and comes from four generations of Emblynette Pathfinders.**

SAV STARDOM 7066
Maternal brother to lots 444-445 featured in this sale as lot 197.

SAV REPUTATION 1112
Full brother to the Pathfinder dam of lots 444-445 selected by Orville Skogen as the fourth top-selling bull from the 2012 SAV Sale.

SAV EMBLYNETTE 7566
Maternal grandam of lots 444-445.

SAV EMBLYNETTE 7261
This prolific Pathfinder is the third dam of lots 444-445. She continues in production at 20+ years of age as a testament to the longevity, fertility and productivity of the Emblynette family lineage.

SAV EMBLYNETTE 7260
This prolific fourth generation Pathfinder is a twin sister to SAV Emblynette 7261. She has 24 direct daughters in the SAV herd and served in production past 19-years of age.

BIRTH	WEAN	MILK	YEARLING	SCROTAL
+0.3	+60	+25	+110	+1.47

Commander is an SAV herdsire with fresh outcross calving-ease and carcass genetics, selected by SAV and Accelerated Genetics as the $95,000 top-selling bull in the 2015 Vintage Bull Sale where he was a dominant performance and phenotype standout. He presents a unique combination of power, muscle and performance that you rarely find in a low birth weight package.

Commander's dam records a progeny birth ratio of 94 and a weaning ratio of 116 on 3 natural calves. She ranks among the top income-producing cows in the Angus breed, surpassing $3 million in direct progeny sales. She has a wide array of top-selling progeny and AI stud sons and is the dam of the 2018 National Angus Foundation Heifer.

The Commander progeny at SAV are attractive, with length and muscle – balanced in both phenotype and numbers. They offer an appealing EPD spread, addressing all traits from calving-ease to end-product merit and provide exciting outcross options that are sure to please. The 2018 SAV Sale features the first offering by Commander with 25 direct progeny selling.

His dam

SANDPOINT BLACKBIRD 8809

This high maternal, herdsire producer earned a progeny birth ratio of 94 and a weaning ratio of 116 on 3 natural calves and has tallied over $3 million in direct progeny sales. She is the dam of multiple herdsires as well as the 2018 National Angus Foundation Heifer.

Relaxing at the 2017 SAV Sale!

SAV RANCH HEADQUARTERS

Fresh outcross calving-ease and carcass genetics by Commander...

SAV LIEUTENANT 7218 - LOT 446

"We are getting beautiful and strong calves out of our SAV bull. They are almost all bull calves and so hearty. We are planning on coming back to your sale."

-Grayling & Marilyn Stayner

SAV BLACKCAP MAY 4136
Maternal grandam of lot 446.

SAV BLACKCAP MAY 1442
Full sister to the dam of lot 446 and flush sister to Resource. She is the dam of SAV Privilege 3030 featured at Vermilion Ranches.

SAV BLACKCAP MAY 7306
Pathfinder grandam of lot 447 earning a weaning ratio of 106 on 8 calves.

446 SAV Lieutenant 7218

- **Recommended for heifers. SAV Lieutenant 7218 is an impressive herdsire prospect and one of the great genetic achievements of the 2017 calfcrop. He is perfectly balanced in phenotype and numbers, ranking as the #1 milk EPD and #5 marbling bull in the entire offering. His preweaning photo shows the masculinity, muscle and maturity that identified him as an early favorite. He earned a 205-day weight of 986 lbs. as his dam's first calf.**
- **His moderate, capacious, perfect-uddered 2-year-old dam is a model of efficiency and has joined the SAV embryo program. She is a full sister to Resource, Renown and Recharge, as well as a host of the top young cows in the SAV herd.**
- **His legendary grandam, SAV Blackcap May 4136, needs no introduction as the Angus breed's most influential genetic contributor.**

SAV Ten Speed 3022 is the $260,000 top-selling bull from the 2014 SAV Sale and a leading member of the sire roster at Genex AI Stud. He is a proven, industry-leading curvebender who excels at every measure, combining calving-ease, growth and elite carcass values with beef bull phenotype and a maternally-superior cow family. His progeny have excelled in a vast number of herds and solidified his EPD profile that will rival the best in the breed. Ten Speed has received endorsement from all sectors of the industry and is seeing extensive use around the globe as one of the highest profile sires on the Angus scene today.

His elite Pathfinder dam by Bismarck balances a birth ratio of 92 with a weaning ratio of 107 on 5 calves. She is a feminine, productive cow with beautiful body type and an ideal udder. She descends from the first cow from the Schaff program to be enrolled in embryo transplant.

The 2017 SAV Sale will feature 12 progeny of SAV Ten Speed 3022 and a maternal brother.

His Pathfinder dam

SAV MADAME PRIDE 1134

Pathfinder dam of SAV Ten Speed 3022. She earned a progeny weaning ratio of 107 on 5 calves and serves in the SAV embryo program. A son is featured as lot 52.

SAV MADAME PRIDE 4466

This 14-year-old brood matron is the dam of SAV Copyright 0194 at Semex AI Stud and third dam of SAV Ten Speed 3022 at Genex AI Stud.

Thank you to the summer visitors to SAV.

Thank you to those who attended the SAV Open House.

- **A special sale attraction . . . This powerful third generation SAV Elba donor has it all – dominating phenotype, cow family strength, stellar production ability and proven earning power. She is the #1 marbling female of her entire calfcrop and third top milk EPD cow in the SAV herd. She earned a progeny weaning ratio of 112 on four natural calves, with her first three sons all breaking the 1000 pound barrier at 205-days of age! Two of these sons have tallied $27,000 in past SAV sales and another is featured as lot 26 in this event. Her only daughter ranks among the top of the 2015 model cows in the SAV herd and many future embryo progeny are highly anticipated.**
- **Lot 501 offers a rare opportunity to access a direct daughter of the legendary breed icon, SAV Elba 1094, who has tallied $1.1 million in receipts on 117 progeny in past SAV sales.**
- **A maternal brother, SAV Peacemaker 3179, was the top-performing and top-valued bull in the 2004 SAV Sale. Flush brothers include the $30,000 SAV Regal 2883 selected by Denny Topf and the $23,000 SAV Regency 2884 selected by Buford Ranches. Maternal sisters to lot 501 include the $40,000 SAV Elba 8986, the $36,000 SAV Elba 1810, the $30,000 SAV Elba 5383, the $27,500 SAV Elba 1797, the $25,000 SAV Elba 8969 and the $20,000 SAV Elba 4436.**
- **Lot 501 has raised the bar in embryo transfer, averaging 19 embryos in five collections since weaning her calf last October. She sells open and ready for embryo production success – a profit-center second to none!**

SAV 654X RAINMAKER 6186
This son of lot 501 was selected by Abernathy Ranches as a $17,000 feature of the 2017 SAV Sale. He recorded a 205-day weight of 1023 lbs. for a weaning ratio of 112.

SAV NAMESAKE 4236
This son of lot 501 was selected by Blubaugh Angus Ranch as a $10,000 feature of the 2015 SAV Sale. He recorded a 205-day weight of 1043 lbs. for a weaning ratio of 115.

- A hand-picked sale feature and headliner of this event with major donor potential. She puts it all together – stellar phenotype, numerical data, pedigree and cow family strength to be a genetic trendsetter. She earned a weaning ratio of 111, ranking among the five top-indexing heifers of her competitive calfcrop.
- Her awesome 2-year-old dam by Density sports a perfect udder and is on the same path of productivity as the three generations of SAV donors from whom she descends.
- Her heavy milking grandam ranks among the five top milk EPD cows in the SAV herd and records a weaning ratio of 108 of 5 calves. She has three progeny averaging $17,166 in past SAV sales.

- **An elegant, super-fronted, class act heifer with striking phenotypic quality – the kind that will get noticed in the show ring or in the breeding pasture. She is equally impressive on paper, with EPDs for weaning and yearling weight that run off the charts.**
- **Her powerful dam sports a perfect-udder and has served in the IVF embryo program at a young age. She is a flush sister to the $235,000 SAV Seedstock 4838 and a full sister to the $650,000 SAV Sensation 5615. Her first son was selected by Saunders Land & Livestock as a $12,000 feature of the 2017 SAV Sale.**

SAV RECEPTOR 4837
Full brother to the dams of lots 518-522. He was selected by ZWT and John Kiker as a $65,000 feature of the 2015 SAV Sale.

SAV RELIANT 4836
Full brother to the dams of lots 518-522 selected by Blubaugh Angus Ranch as a $40,000 feature of the 2015 SAV Sale.

- A sale headliner and major-league donor prospect who emulates everything we look for in an ideal female. She is ultra-feminine, angular, wedge-shaped and stout-hipped with perfect structural balance. She earned a weaning ratio of 107 and presents an exceptional EPD profile that excels from start to finish. She is the second top ribeye EPD heifer in the entire offering.
- Her tremendous dam by Resource is a new generation headliner in the SAV embryo program. She has seven daughters retained in the SAV herd and 17 progeny featured in this event. A son sold in the 2016 SAV Sale for $16,000 to Bickle Cattle Co.

- A sterling pedigree combination, uniquely blending XXP and Resource with the Primrose family that was established at SAV in 1942 as the oldest original cow family on the Schaff ranch.
- Her massive dam by Resource is the third top weaning female of her calfcrop. A son sold in the 2017 SAV Sale for $5000 Wayne Herman.
- Her Pathfinder grandam serves in the SAV embryo program and records a weaning ratio of 103 on 7 calves. She is a maternal sister to the $50,000 SAV Rifleman 2811 and the $35,000 SAV Blacksmith 2815, both featured at Alta Genetics AI Stud.

SAV PRIMROSE 9630
Pathfinder grandam of lot 693.

SAV POLLY 9931
Pathfinder dam of lot 694 and grandam of lot 695.

SAV POLLY 9913
Pathfinder grandam of lot 696 and flush sister to SAV 707 Rito 9969.

SAV 707 RITO 9969
The $147,500 second top-selling bull from the 2010 SAV Sale and flush brother to the Pathfinder dam of lot 694 and grandams of lots 695-696.

Commitment to quality earns Schaff honor

Kelly, Martie Jo Schaff and daughters Kelsie & Kourtney will hold their family's 115th production sale on February 10, 2018.

By Karin Schiley
Tri-State Livestock News
(Reprinted with permission)

North Dakota cattleman inducted into the Angus Heritage Foundation

On a ranch tucked into a valley of rolling rangeland near St. Anthony, North Dakota, the Schaff family has built a legacy recognized not only in the Angus industry but in the beef industry worldwide.

Each year, the American Angus Association celebrates innovators and visionaries in the industry by selecting individuals for induction into the Angus Heritage Foundation. On Nov. 6 during the 2017 Angus Convention in Fort Worth, Texas, Kelly Schaff was among four Angus industry leaders who were added to the prestigious group.

Schaff, a fourth-generation rancher from St. Anthony, is a lifelong contributor to the Angus breed and the legacy of the world-renowned Schaff Angus Valley, along with his wife, Martie Jo, and daughters, Kelsie and Kourtney.

Growing up in the Angus business, Schaff's unbridled passion and enthusiasm for Angus cattle started at a very young age, taking on large responsibilities in the registered breeding program that was started by his grandfather, Paul Schaff, and carried forward by his father, Martin, and uncles, Joe and Paul Jr.

Schaff learned in his youth to visually identify quality cattle. He showed cattle and judged livestock in 4-H and FFA and had the honor of being named the High Individual in the National FFA Livestock Judging Contest. Schaff was also honored to be selected to judge many national livestock shows including the National Western Stock Show, the North American International, the American Royal, and the World Beef Expo, oftentimes being the youngest individual to ever judge these prestigious shows.

That eye for quality and his meticulous drive for phenotype selection led Schaff to realize that what made good quality cattle never really changed. Fertility, fleshing-ease, temperament, capacity, muscle dimension and correct structure were always going to be in demand in the beef industry.

When Schaff took over the reins of the family operation he had a clear goal in mind.

"Although this is a great honor, there is also a great responsibility to produce genetics that will enhance productivity and profitability and real economic value for the industry we serve."

Kelly Schaff, being inducted into Angus Heritage Foundation.

"I recognized that there was going to be more demand and profit potential for the elite type of cattle," Schaff said. "We really focused on propagating the superior genetics and a quality-focused vision of building the herd. There is no shortage of Angus cattle but a shortage of the really good ones and we wanted to focus on the kind that can move the breed forward."

Schaff also focused on his customers' needs, realizing that his own success hinged on the profitability of the cowman who sells pounds for a living. That focus has not wavered and has been instrumental in making the Schaff Angus Valley brand the world's leading prefix in Angus genetics.

"Although this is a great honor, there is also a great responsibility to produce genetics that will enhance productivity, profitability and real economic value for the industry we serve," Schaff said.

Schaff feels honored that SAV has bred, raised and marketed well over 100 sires that are active in the major AI studs. Many of these SAV sires can be recognized by cattle producers worldwide by name including: Traveler 004, Bismarck, Final Answer, Net Worth, Harvestor and Resource just to name a few.

"Our innovative breeding program is constantly progressing, improving and refining, taking advantage of genetic turnover and intense selection pressure to make sure each calf crop is stronger than the last," Schaff said.

"The bulls we are going to be selling in February average well above breed average for 205 day weight. It took over a 900 pound bull calf at 205 days of age to be average in the SAV herd—that's the level of competition in our herd," Schaff said.

Schaff credits artificial insemination technology for being able to rapidly improve cattle genetics, but the recent innovation of In Vitro Fertilization (IVF) in cattle has made even bigger and farther reaching changes. "With IVF, we can mass multiply the superior genetic producers. The top 5 percent of our herd can produce over 50 percent of our calves each year." Schaff also notes that IVF can be done without taking a cow out of production. The top producing cows continue to be pregnant, while also having the potential to produce 100 embryos in one year.

Another innovation that the Schaff family embraced as soon as it was available was the use of live ultrasound to evaluate for carcass data to give their customers more information when selecting for carcass traits.

"To date we have held 114 production sales of Angus cattle for our family operation, really demonstrating our commitment and belief in the Angus breed," Schaff said. The Schaff family will host their 115th production sale of registered Angus cattle in February 2018, marking the longest running consecutive purebred cattle sale of any in the world. They market approximately 700 registered Angus bulls and females in that event annually, which has been the record sale in breed history for several years running.

Schaff believes that the fundamental basics are still vital when selecting productive and profitable cattle. "Although there are a lot of tools for selection available, the bottom line is still pounds on the scale and value in the marketplace," Schaff said.

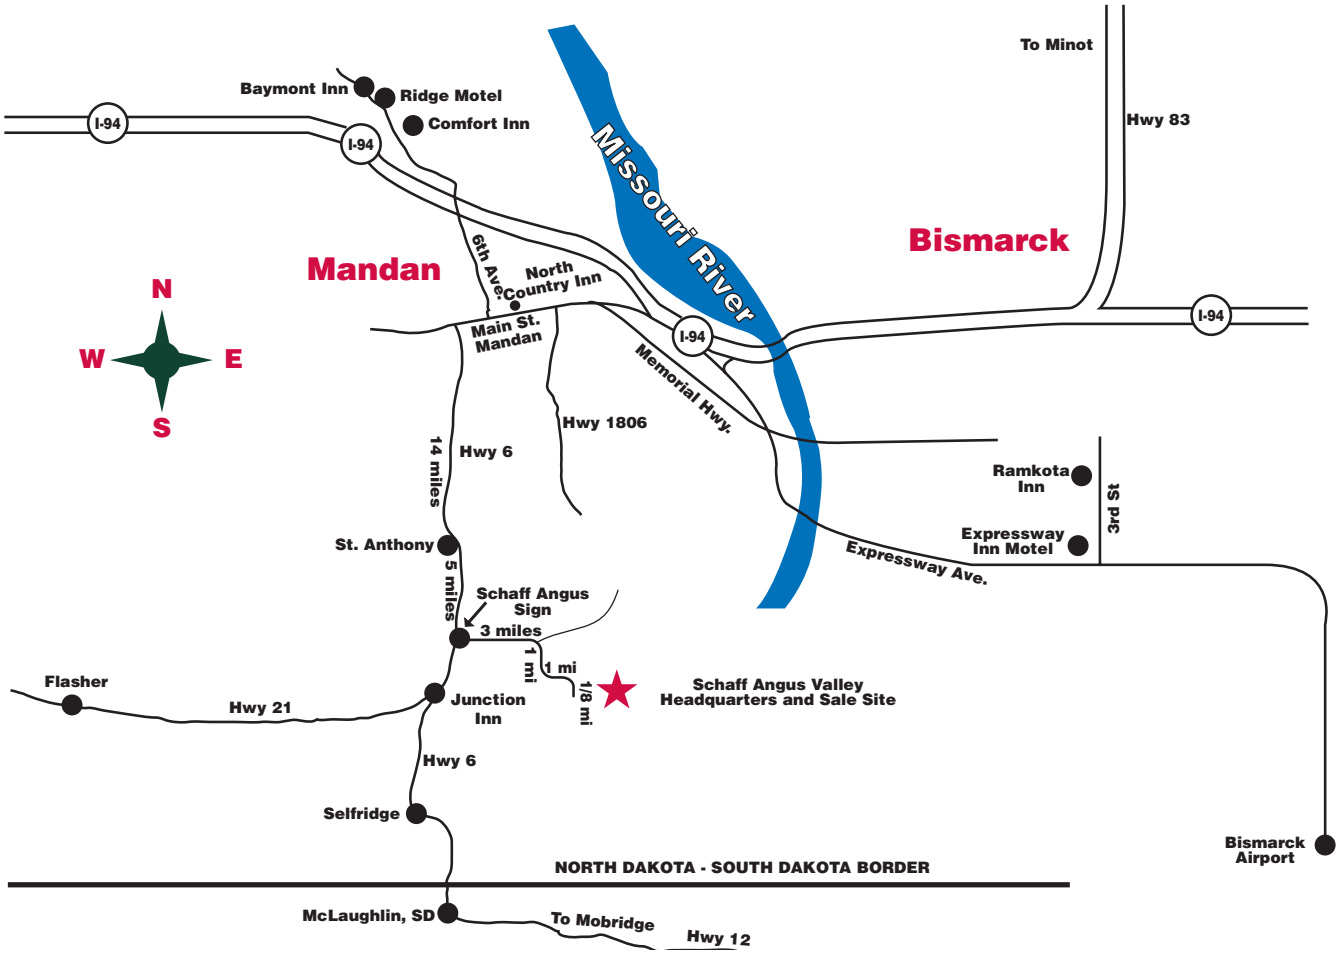

Directions to Schaff Angus Valley...

The Schaff Angus Valley Sale will be held in the heated sale facility located at the Schaff Angus Valley headquarters. From Mandan, take Highway #6 south 19 miles to the Schaff Angus sign, then turn east on County Road 135 and follow the county gravel road 5 1/8 miles to the ranch and sale site.

Thank you for attending the 2018 Schaff Angus Valley Sale!

Schedule of Events

FRIDAY, FEBRUARY 9TH
OPEN HOUSE
Cattle available for viewing thru late evening.

SATURDAY, FEBRUARY 10TH
SALE STARTS AT 10:00 AM CST
Bulls sell first, followed by females.
Printed sale orders will be available.

Refreshments and food will be served throughout the duration of both days.

Customer Appreciation Special

10 free straws of Cut Above semen to each buyer!

SAV Cut Above 6271
