

Spring 2016

BEEF

Profit From Genetic Progress

The beef industry continues to experience an era of growth and unprecedented opportunity. Even with prices off from their cyclical highs, our product continues to have high value and demand.

As shown on the cover of this directory, our business is about proven, profit oriented bulls and the team of quality people behind them.

"Profit From Genetic Progress" is a new tagline for ABS but one that's based on a long-term history of pioneering performance driven, profit focused genetic improvement from Pasture to Plate. That philosophy is backed by programs like our exclusive Angus Sire Alliance partnership. Started in 1996 by Circle A Angus Ranch, the program is backed by two decades of real world commercial testing and feed intake data. No one in the industry can match that track record.

While our philosophy is data and profit driven, Pasture to Plate still starts with the cow and how she performs in your herd. We are proud of the success our customers and bull owner partners have with ABS genetics and you will see evidence of that throughout this directory with the many high quality progeny support photos.

Beyond the genetic benefits, a synchronized AI program can also enhance herd reproductive efficiency and lower costs compared to natural service. Look to your full service ABS Representative to not only deliver the best genetics in the industry but also convenient, full service programs designed to work for your specific needs.

For long-term AI users, today's genetics are more proven, relevant and cost competitive than ever before. If you've never used AI, there has never been a better time to start.

ABS and AI Can Add Value to Your Program Through...

✓ Enhanced Reproductive Efficiency

The first 30 days of your calving season are critical to your success. Females that conceive early in the breeding season wean bigger calves, remain in the herd longer and generate more lifetime profit. Let ABS help set your heifers and young cows up for long term success.

✓ Cost Savings

With today's bull prices, AI is a cost competitive alternative to natural service that can extend your bull power and save you money.

Bull Prices are at Unprecedented Levels				
Natural Service Cost per Pregnancy				
Bull Purchase Price	\$4,000	\$6,000	\$8,000	\$10,000
15 cows for 3 years	\$139.62	\$195.40	\$251.18	\$306.96
20 cows for 3 years	\$104.72	\$146.55	\$188.38	\$230.22
25 cows for 3 years	\$83.77	\$117.24	\$150.71	\$184.17
30 cows for 3 years	\$69.81	\$97.70	\$125.59	\$153.48

Assumes \$1,800 salvage value, \$1,000 feed, facilities and veterinary expenses, 95% pregnancy rate, 6% risk and 5% interest rate

AI Costs are equal or less than Natural Service				
Synchronization & AI Cost Per Pregnancy with Fixed Time AI	Pregnancy Rate			
	40%	50%	60%	70%
MGA PG & Fixed Time AI	\$83.75	\$67.00	\$55.83	\$47.86
7-Day Co-Synch + CIDR	\$111.25	\$89.00	\$74.17	\$63.57
14-Day CIDR – PG & Fixed Time AI	\$105.00	\$84.00	\$70.00	\$60.00

Calculated using Iowa Beef Center Synchronization Systems Planner: www.iowabeefcenter.org
Assumes \$2.50 cost for prostaglandin and GnRH, \$2.50 for MGA, \$11.00 CIDR cost, \$26 combined semen and technician cost

✓ Added Genetic Value

AI gives you the unmatched ability to incorporate high accuracy, proven genetics into your herd. Choosing high accuracy sires can reliably add value to both your calf crop and for the long term betterment of your cow herd. ABS' long-term focus on profit based genetic value from Pasture to Plate sets us apart.

Reserve Your Ticket to Efficiency

- ✓ High accuracy, double digit calving ease combined with excellent thickness
- ✓ Outstanding overall performance through the commercially oriented Angus Sire Alliance testing program where he ranks in the top 5% across the board for Total Profit, Feed Efficiency and Maternal Index
- ✓ Progeny proven efficiency sire who ranks in the top 1% for reduced feed intake
- ✓ Sires complete, attractive and sound made cattle with excellent docility
- ✓ His solid calving ease and maternally oriented data package combined with a no holes phenotype add up to great customer satisfaction and mating flexibility

RESERVE saw heavy early usage due to his genomic profile and elite cow family. Now as a high accuracy sire, he is proven to excel for calving ease, end product value and efficiency. He transmits these traits with a moderate, maternally oriented phenotype that is earning him high marks for cowboy satisfaction.

CARCASS MERIT 🍖🍖🍖🍖

Proven Sire Alliance bulls deliver profit and predictability from Pasture to Plate™

Long lasting, productive and profitable daughters

IN THE PASTURE

Beyond performance, carcass value and efficiency, daughters of Sire Alliance bulls are monitored for maternal function and profitability.

The Sire Alliance Maternal Index incorporates daughter productivity and fertility data including Heifer Pregnancy and Stayability.

The Angus Sire Alliance Program was initiated by Circle A Angus Ranch in 1996 to objectively measure commercial performance and real world value from birth-to-harvest. The program pioneered the use of selection indexes in the beef industry and remains the most comprehensive source of feedlot profit, efficiency and maternal performance.

ABS has been a marketing partner with Circle A since the first bulls graduated in 1998 and the Sire Alliance program has been an exclusive ABS progeny testing program since 2008. The data derived on ABS sires not only provides you, our customers, added accuracy and reliability, but also unique and valuable insight into feed efficiency and commercial profitability that is not available anywhere else today.

Beyond the proven Sire Alliance graduates offered in this directory, we are also utilizing Sire Alliance data to develop and select the next generation of ABS sires.

High performing steers backed by documented efficiency genetics

IN THE FEEDLOT

The Sire Alliance is the longest running program of it's kind with progeny individually measured for feed intake since 1998.

While high feed cost in recent years has made feed efficiency a key trait of interest, no one can match the Sire Alliance's foresight and decade and a half of intake measurements.

Carcasses that deliver quality and cutability to earn grid premiums

ON THE RAIL

Today, the Sire Alliance and Circle A Ranch are the largest contributors to the American Angus Association carcass data base.

The typical Sire Alliance graduate has 30 steer progeny evaluated for carcass merit which by itself generates higher reliability and accuracy levels than 90% of the bulls that qualify for the Main Sire Summary listing.

TOTAL PROFIT

- ✓ Real World Data™ for real world profit
- ✓ Complete performance data from birth to harvest including:
 - Calving Ease
 - Pre-weaning performance
 - Feedlot gain and intake
 - Carcass yield and quality
- ✓ Derived from large commercial contemporary groups
- ✓ The first modern beef selection index in 1996 and still the most comprehensive

SPECIAL FOCUS x B C C Bushwacker 41-93, EXAR Lucy 106.1, Double Creek Farms, TX

Elevated IN FOCUS Genetics

- ✓ With nearly identical growth levels to his sire, he offers enhanced Calving Ease, Rib Eye Area and Beef Value
- ✓ High accuracy, sure-bet calving ease with solid growth, moderate mature size and outstanding scrotal circumference
- ✓ His daughters set him apart from the crowd - they are deep bodied and easy fleshing with fault free structure and udder quality
- ✓ Ranks in the top 25% for Feed Efficiency and the top 4% for Maternal Index through the ABS exclusive Angus Sire Alliance test

With the same cowboy-proven type and kind and an even better overall calving ease EPD profile, SPECIAL FOCUS has taken his sire's influence to the next level.

As Solid as His Name

- ✓ One of the most popular and most proven sires in the breed
- ✓ Moderate framed and powerful, combining high accuracy calving ease with top 1% muscle
- ✓ Progeny are thick, attractive and correct with a highly sought after combination of calving ease, muscle and docility
- ✓ A breed leader for Heifer Pregnancy EPD with nice uddered, productive easy to like daughters

Backed by a high accuracy, balanced trait EPD profile and super customer satisfaction, HOOVER DAM has become one of the most consistent and heaviest used bulls in the industry today.

He excels for carcass merit and \$B index, but his calving ease, muscle and outstanding docility are at the heart of his producer appeal. HOOVER DAM progeny come light, with added style and muscle from day one. They are attractive patterned, sound structured and slick haired. His daughters are making outstanding young cows.

Rock Solid Phenotype & Calving Ease

- ✓ Sure fire calving ease combined with explosive growth and muscle
- ✓ Ranks in the top 2% of the breed for Calving Ease EPD with a +105 Yearling Weight EPD and +129 \$B Index
- ✓ Dam has been a stalwart of the Stevenson program and has also produced Stevenson CE Deluxe 1914 and Stevenson Hero I216U
- ✓ Progeny are moderate and correct with super thickness and eye appeal
- ✓ His first daughters are eye catching females with near perfect udders

ROCKMOUNT combines the maternal strength of the proven Pride cow family with the Sire Alliance all star DAYBREAK and does it in a very phenotypically pleasing package. An appealing choice for heifers, ROCKMOUNT's +16 Calving Ease EPDs is validated by successful commercial use on heifers both in the U.S. and Russia. His moderate framed, heavy muscled sons have also been given the stamp of approval by commercial cattlemen in recent Stevenson Angus sales. It's his daughters however, that may be the ultimate difference maker combining strong performance and maternal design.

DAYBREAK's Most Powerful Son

- ✓ Powerfully constructed, heavy muscled, masculine DAYBREAK son with incredible growth and performance
- ✓ His +11 CED, +95 WW and +169 YW EPDs offer the most impressive calving ease and growth combination in the industry
- ✓ Dominant post weaning performance ranking #2 among active sires for both YW EPD and \$F index
- ✓ His +\$214.36 \$B Index also ranks #4 among all active sires in the Angus breed
- ✓ Backed by one of the most impressive cow families in the breed today - his dam is a moderate framed, big bodied cow that adds growth, muscle and \$B to every mating

Garnering national attention as rapidly as any bull in recent history, RAMPAGE continues to turn heads as his data and accuracy increase. As an early genomic standout, RAMPAGE is now adding impressive progeny data with his first 160 calves ratioing 100 at birth and 105 for weaning weight in 29 herds.

RAMPAGE x OBJECTIVE, Blackstone Rita 5111, Three Trees Ranch, GA

Full Sister - Quaker Hill Blackcap 0A32, Spring Grove Ranch, VA

SOUTHSIDE Will Deliver Extra Performance

- ✓ Incredible birth to weaning and yearling spread with a +94 \$W and +157 \$B combination
- ✓ Heaviest weaning weight bull in the history of Knoll Crest Farms
- ✓ Outstanding combination of Scrotal Circumference, Heifer Pregnancy and Docility
- ✓ Maternal Power - five out of six dams on the bottom side of his pedigree are PATHFINDERS®
- ✓ Progeny have tremendous length with great performance in a very sound and athletic package - first daughters are great mothers with neat udders

TOUR OF DUTY x S A V Bismarck 5682, RB Rita Tour 03-386, THM Investments LLC, MO

Tour of Force

- ✓ High performance genetics from a proven, high-impact cow family
- ✓ He is one of the hottest bulls on the planet combining big time curve bender spread with powerful type and kind
- ✓ Top 2% standout for both \$W and \$B indexes
- ✓ His maternal sister 890, has established herself as the top dam in the breed for birth to yearling spread and was the record setting, top seller at the 2014 NWSS Foundation Female Sale
- ✓ A full sister to TOUR OF DUTY topped that same event in 2015

TOUR OF DUTY is taking the industry by storm and redefining the term curve bender. He's as much of a sensation in person as he is on paper. A sound structured, athletic bull, TOUR OF DUTY displays exceptional length of body and capacity. Use him to add performance, powerful phenotype and the influence of one of the breed's top cow families.

ANGUS

Good as Gold Performance

- ✓ High performance sire who has earned a top 1% YW EPD through the Nichols Farms program
- ✓ Big bodied, easy fleshing bull with excellent docility
- ✓ Slick haired bull whose progeny have excelled on fescue
- ✓ His 100% Nichols pedigree not only speaks well of his performance heritage but also provides a unique outcross to most of today's popular pedigrees

YELLOWSTONE - A Genetic Treasure for Form & Function

- ✓ One of the most popular sires of the past 2 years - YELLOWSTONE saw tremendous use both registered and commercially
- ✓ With near perfect EPD's he ranks in the top 20% of the breed or better for 13 different traits and indexes including CE, MARB, REA, API and TI
- ✓ Demand for YELLOWSTONE continues to increase due to his perfect structure and profile with added muscle and thickness - his sons are dominating performance based sales across the nation
- ✓ DNA tested homozygous black, homozygous polled, PB SM

YELLOWSTONE is one of the heaviest used purebred Simmental sires in the industry today. Producers love him for his near flawless structure and phenotype. YELLOWSTONE offers an EPD profile that is near perfect - calving ease with added growth and industry leading end product. It's almost cliché today to say 'no holes EPD profile', yet YELLOWSTONE is one of the very rare sires who ranks in the best 50% of the breed for every trait or index measured.

YELLOWSTONE is a middle framed sire with plenty of bone and substance, he transmits plenty of growth and thick made big topped progeny that are appealing from every angle. Make YELLOWSTONE your next choice!

137AR3785 NEXUS

SILVEIRAS MISSION NEXUS 1378 RAAA 1410853 1A Born 1/24/11

Owned by: Baier Stock Farms, IA; Silveira Bros, CA; Nolin Red Angus, IA; Rahman Red Angus, MN

Phenotypic Powerhouse

- ✓ NEXUS has been crowned a champion both in the breeding pasture and on the tanbark
- ✓ Super phenotype with moderate birth weight, added growth and explosive red meat yield
- ✓ Offers lots of mating flexibility, should compliment well back on NEBULA and EPIC influence females
- ✓ Progeny show extra rib and dimension along with tremendous feet and a fabulous disposition

29AR0263 PRIME CUT

BROWN PRIME CUT B239 RAAA 1703757 1A Born 1/11/14

Owned by: R.A. Brown Family Ranch, TX; Ludvigson Stock Farm, IA; VF Red Angus, OR; Durni's Double Eagle, OR; Pitchfork T Ranch, OR; Lorenzen Ranch, OR; ABS Global, Inc., WI

When Quality Matters, PRIME CUT is the Answer

- ✓ In terms of breed direction, PRIME CUT could be the most valuable bull to sell in 2015
- ✓ Stands as the #2 active Red bull in the breed for Marbling EPD at a +1.76
- ✓ Breeding PRIME CUT to breed average cows, the resulting progeny all rank in the top 1% of the breed, a simple solution to achieve a choice market
- ✓ Covers all the bases, +226 HB, +55 GM, +12 CED, +70 WW, +14 HPG and lights out marbling all in one package
- ✓ PRIME CUT is sound footed, long bodied and clean made with good muscle expression, with good mating flexibility

29AR0264 BIG BEEF

LSF SRR BIG BEEF B630 RAAA 1709420 1A Born 3/31/14

Owned by: Ludvigson Stock Farm, IA; Lorenzen Ranch, OR; ABS Global, Inc., WI

We Have the BEEF

- ✓ BIG BEEF offers all that we loved about his sire BOXED BEEF, but with more calving ease in a more moderate, deep, soft sided package
- ✓ Offers an outcross pedigree with an EPD tabulation stout enough to move progressive herds to the front of the pack - CE, Growth, Maternal and End Product
- ✓ He is a maternal brother to LSF Night Calver, his dam from the Della tribe by Big Sky is quickly becoming one of the breed greats and is loaded with maternal power
- ✓ BIG BEEF is impressive on the hoof, he appears super deep bodied and easy fleshing with good thickness and muscle, and sound to the ground

The PREMIER Curve Bender & Carcass Sire

- ✓ Among an ultra-elite group of proven sires ranking in the top 3% of the breed for both HerdBuilder & GridMaster Indexes
- ✓ PREMIER progeny and his service have commanded attention around the country and have been highly sought after
- ✓ Progeny are thick made, correct, well balanced and clean fronted
- ✓ Exceptional EPDs, packaging low birth weight and high growth with added carcass merit
- ✓ His progeny are building an outstanding scan record posting an average IMF ratio of 110 on the first 39 progeny records

If you are looking to build a profitable maternal base and maximize total end product value, PREMIER is an excellent choice. He is among a very exclusive group of proven bulls who rank at the top of the breed for both the HerdBuilder and GridMaker Indexes.

His value starts with excellent calving ease and a big time curve bender spread followed by moderate milk, strong fertility and excellent stayability. PREMIER's breed leading Marbling EPD will advance most any program in the industry towards the upper 2/3 choice target. His progeny not only excel from a multi-trait performance perspective but also have an attractive, thick made pleasing design. Using PREMIER will add length of body and produce deep ribbed heavy muscled progeny.

Energize Your Herd with FUSION

- ✓ Elite calving ease potential with strong growth, marbling and maternal traits
- ✓ Wide bodied, deep ribbed and heavy muscled
- ✓ Outstanding foot quality and structural soundness
- ✓ Outcross pedigree featuring the proven influence of calving ease, maternal and docility leader IN FOCUS
- ✓ First progeny are moderate in stature, thick made, deep bodied and soft sided - they have a super disposition with excellent calving ease

FUSION is rapidly proving himself to be the cow making kind of sire we have been looking for. His earliest daughters have yet to calve, but from birth you love the moderation in frame, the added depth and spring of rib, increased fleshing ability, and of course the fantastic disposition he transmits to nearly all of his progeny. It's these traits that have made FUSION a high customer satisfaction sire and driven demand with repeat customers.

FUSION's first crop of bulls sold in the spring of 2015 and they created a lot of excitement in the industry. Many sale highlights and high selling individuals were FUSION sons. Super correct, thick made, good disposition bulls that are attractive to look at - the FUSION kind will always be in demand.

An Advancement in Calving Ease Genetics

- ✓ A new generation of Horned Hereford to specialize in sleep-at-night calving ease and exceptional maternal traits
- ✓ Progeny have been highly sought, 13 sons have averaged over \$28,000 in Holden's last 2 sales
- ✓ Calving ease and maternal trait leader - CED, BW, Milk, M&G, CEM, SC plus BMI\$, CEZ\$ and BII\$
- ✓ His powerful donor dam has posted 3 at 97 BW, 3 at 107 WW and 2 at 104 YW ratios, and his 14 year old Maternal grandam is still in production

Owned by: Frederickson Hereford Farm, SD; Thorstenson Hereford Ranch, SD; ABS Global, Inc., WI

Maternal Power

- ✓ His stylish and eye catching progeny are proven winners in both the pasture and on the tanbark
- ✓ Must use sire for adding added power, length, muscle and capacity in a stylish package
- ✓ Dam is a powerhouse, mid-five frame cow with tons of rib and muscle with an excellent udder
- ✓ Should make excellent baldie females - off the charts BMI

ORIGen Partnership

STATE OF THE ART FACILITY

Several ABS bulls are now making their home at the new ORIGen custom collection facility. Stop for a visit when you are in Montana to see the bulls and the state of the art facility. They are located 19 miles east of Billings on Interstate 90 at the Arrow Creek exit.

Contact ORIGen for your custom collection needs at 1-866-8ORIGEN. They offer full service custom collection options that combine enhanced bio-security along with added bull comfort and safety.

HIGH POWERED SIRE OFFERING

We are proud to feature several ORIGen bulls in our ABS sire directory.

In addition to these bulls, all CSS qualified bulls from ORIGen are available through ABS. These additional ORIGen bulls along with ABS' industry leading main sire lineup make your local full service ABS Representative the undisputed number one source for the industry's most comprehensive battery of sires. Beyond this fact, many of our Representatives are strong reproductive consultants that can assist you in your planning of not only what sires to use in your breeding program but also how to achieve the maximum pregnancies.

Contact your local ABS Representative, your area ABS District Sales Manager or call **1-800-ABS-STUD** to find out more about the ORIGen bulls that are not listed in this catalog and how our team can assist you in facilitating a breeding program for your herd.

Technical Perfection

MVE

Protecting your investment

- American Engineering
- Precision Quality Control Robotics
- Optimizing Science and Function

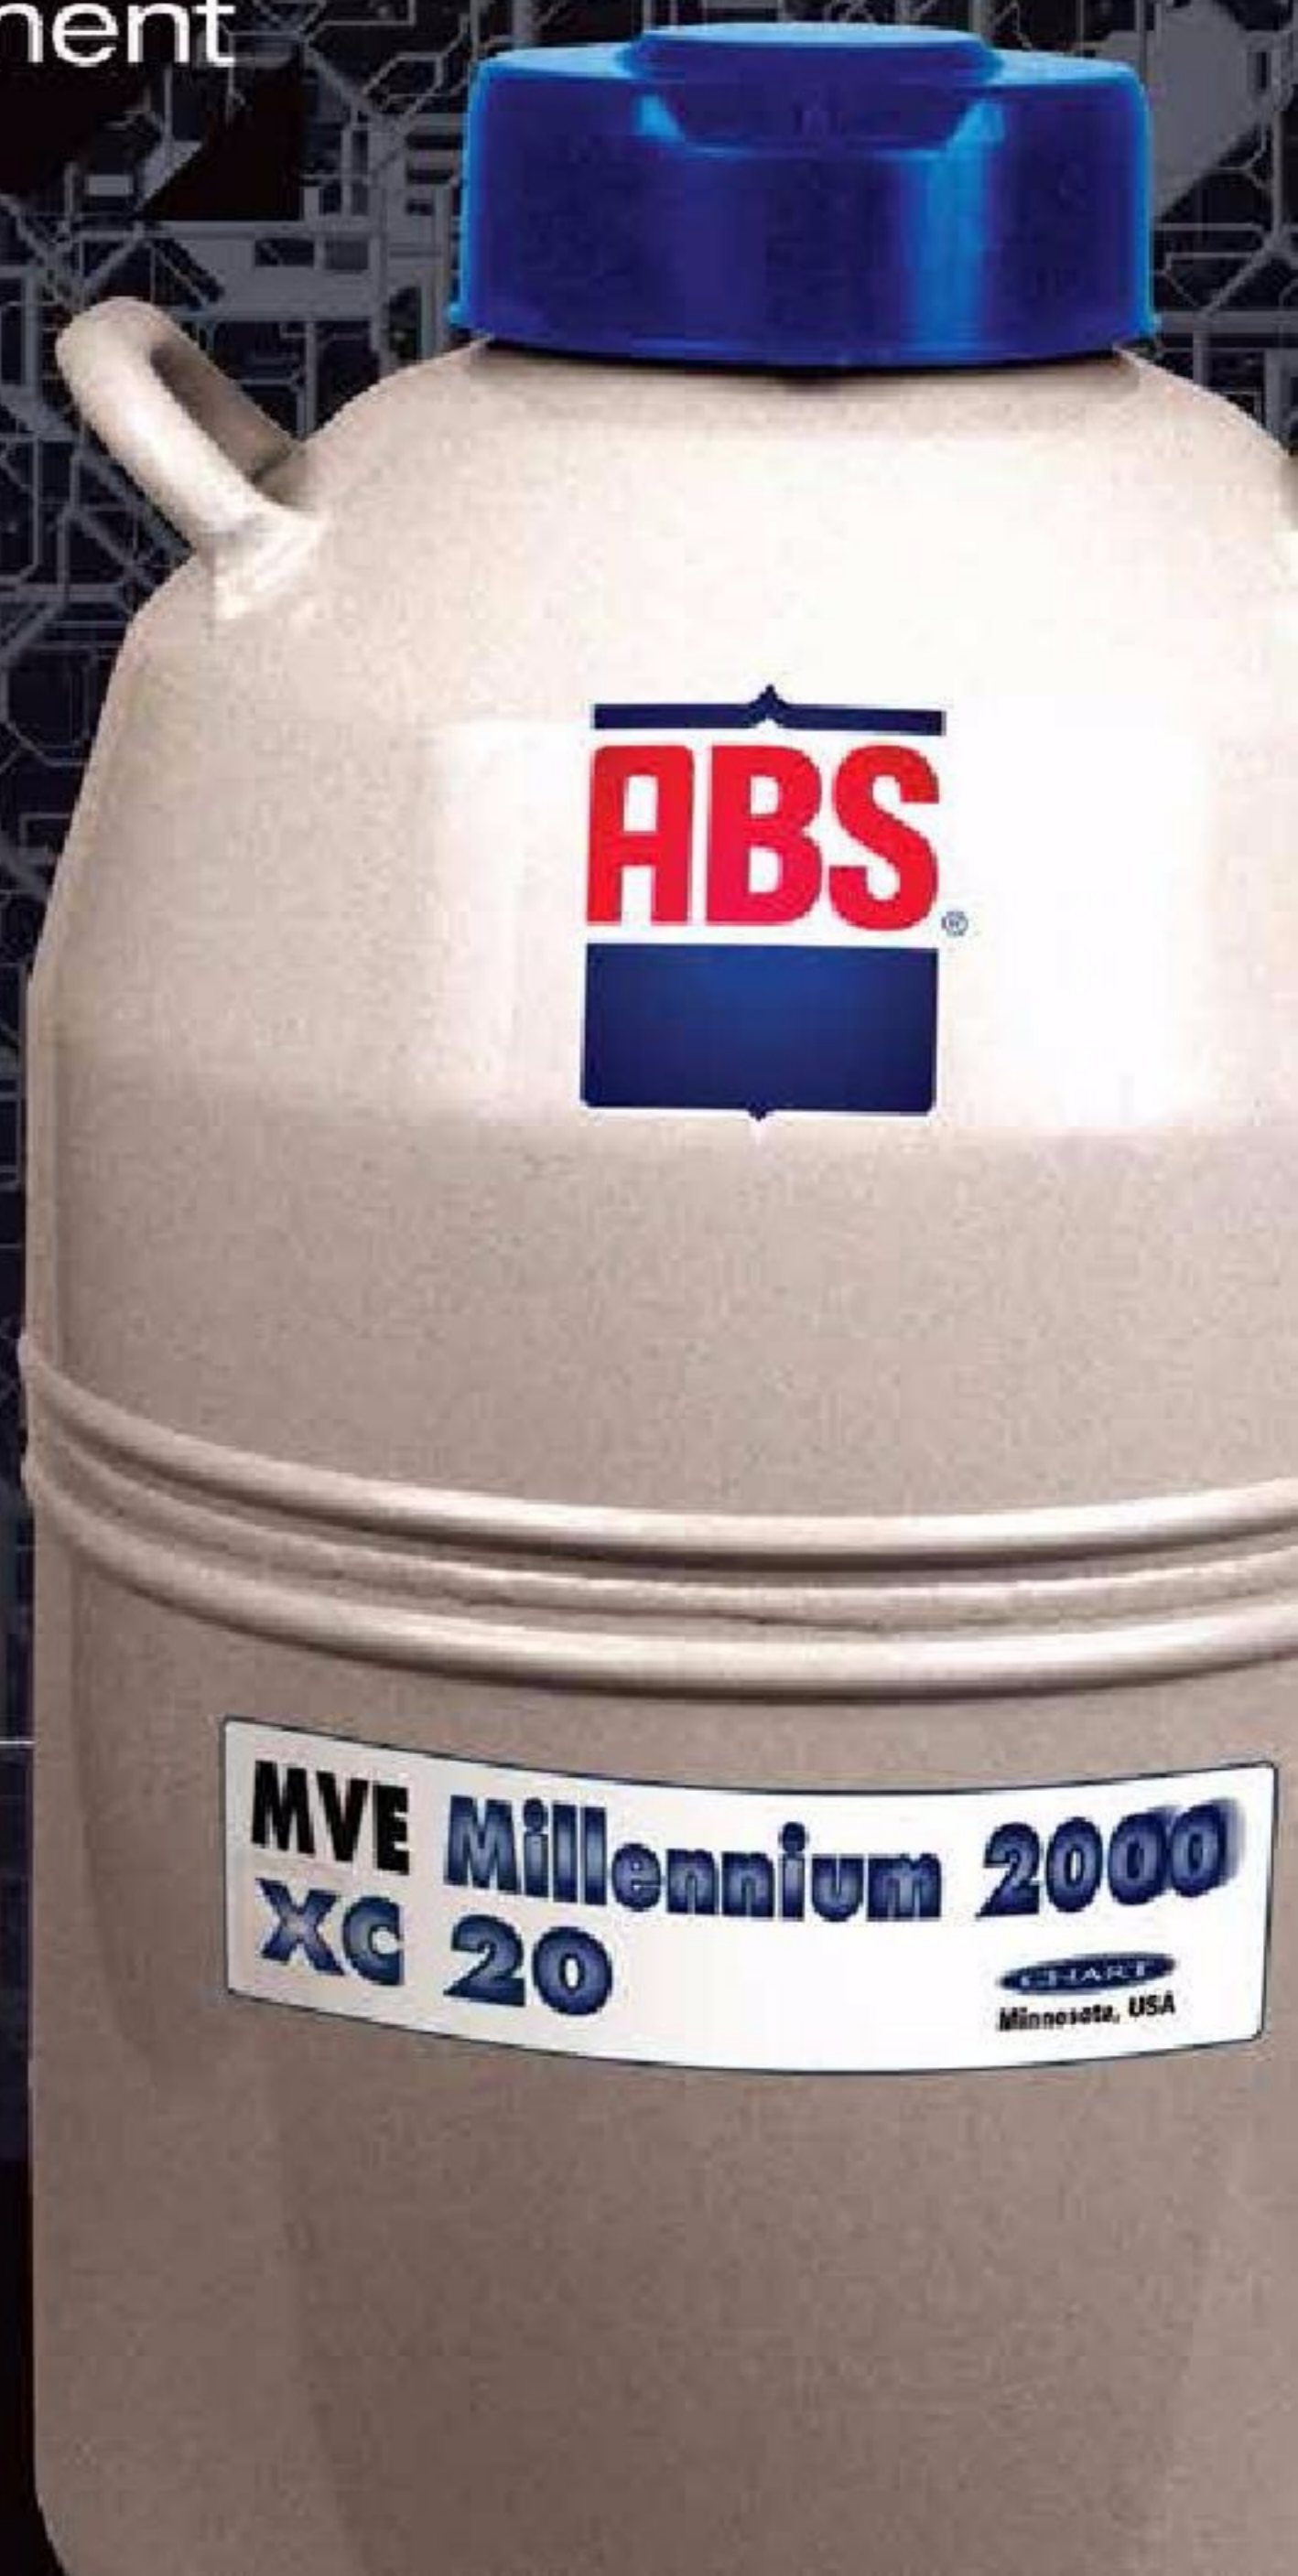

ABS and MVE continue to supply you classic style, function, reliability and the newest technology in semen storage. Contact your ABS Representative today to invest in a tank you can depend on *today and tomorrow.*

SEMEN QUALITY and sire health standards have always been a primary focus at ABS to insure that our product consistently delivers the best results and bio-security possible.

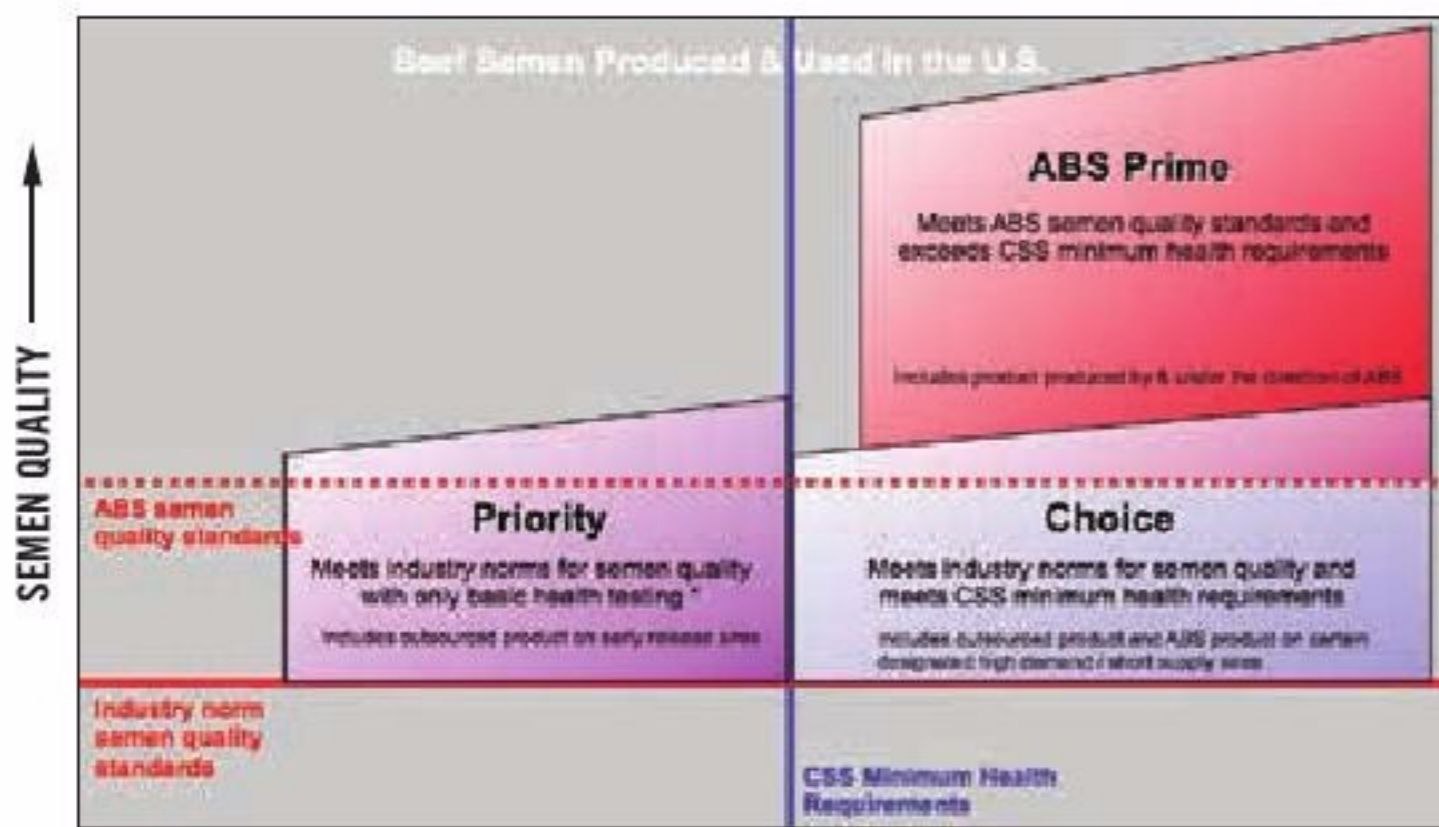

ABS has always been a leader in semen quality having assisted in the development of many of the techniques and protocols that are widely used in the industry today. More than 60 years of research have allowed ABS to develop processes and standards for semen production and processing that exceed industry norms.

In addition, to protect the health and well being of the ABS bull population and provide our customers with the highest level of bio-security possible, ABS' sire health standards exceed CSS minimum requirements. The vast majority of the beef semen marketed by ABS meets these stringent health and semen quality requirements and is classified as ABS normal PRIME quality.

If requested, other quality levels may be available on certain bulls including...

CHOICE quality product of outsourced and certain high demand sires produced at ABS. This semen may not fully meet ABS' normal PRIME semen quality standards but is within industry normal ranges and is fully CSS health qualified.

PRIORITY semen will be available on a request only basis on certain early release bulls. Like much of the custom collection semen used in the U.S., this product has not had full health testing to meet CSS minimum standards. It is designed for producers that are interested in getting the earliest possible semen from high demand sires.

SEMEN SIRE HEALTH REQUIREMENTS

**Priority bulls have basic health testing for the diseases monitored by CSS but have not yet been subjected to the multiple tests or full quarantine required for CSS Certification*

SEMEN QUALITY

- Influences fertility and conception rates achieved
- Determined by the processes employed and standards used in evaluating accepted semen including semen morphology & motility
- **ABS utilizes processes and standards for semen production and evaluation that exceed industry norms**

HEALTH REQUIREMENTS

- Designed to protect the health of the herd in which semen is used by minimizing the risk of disease transmission
- CSS Certified Semen meets Certified Semen Services minimum requirements for disease control of Semen Produced for AI
- **All Prime and Choice semen marketed by ABS exceeds CSS minimum requirements**

Club Calf Semen Disclaimer

"Club Calf semen and accompanying genotype information is independently provided by third-party bull owners, and distributed by ABS as is."

*Prices subject to change without notice.

Warranty Disclaimer

"The purchase or use of ABS products or services are subject to ABS's standard Terms and Conditions, which are available at <http://www.absglobal.com/abs-terms-conditions>. You may also request a copy by contacting ABS customer service at 800-ABS-STUD (800-227-7883)."

ABS Sexation Disclaimer

"Artificial insemination straws of ABS Sexation semen are for single use insemination of heifers only. Not for re-sale. ABS Sexation semen is produced using the proprietary technology of XY, Inc. U.S. Patent Nos. 5,135,759; 6,372,422; 7,094,527; 7,208,265. Patents Pending. XY® is a trademark of XY, Inc."

BEEF COW PROTOCOLS - 2016

HEAT DETECTION

Select Synch

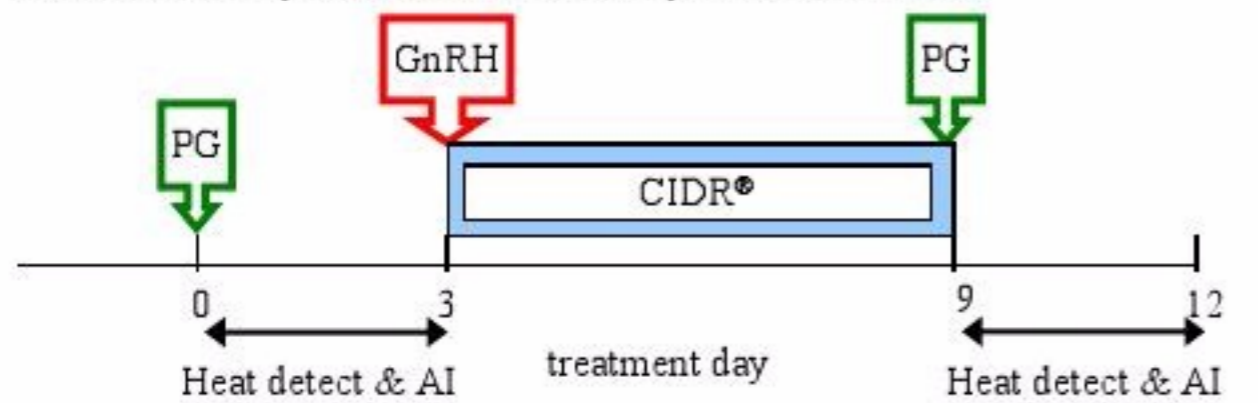

Select Synch + CIDR®

PG 6-day CIDR®

Heat detect and AI days 0 to 3. Administer CIDR to non-responders and heat detect and AI days 9 to 12. Protocol may be used in heifers.

HEAT DETECT & TIME AI (TAI)

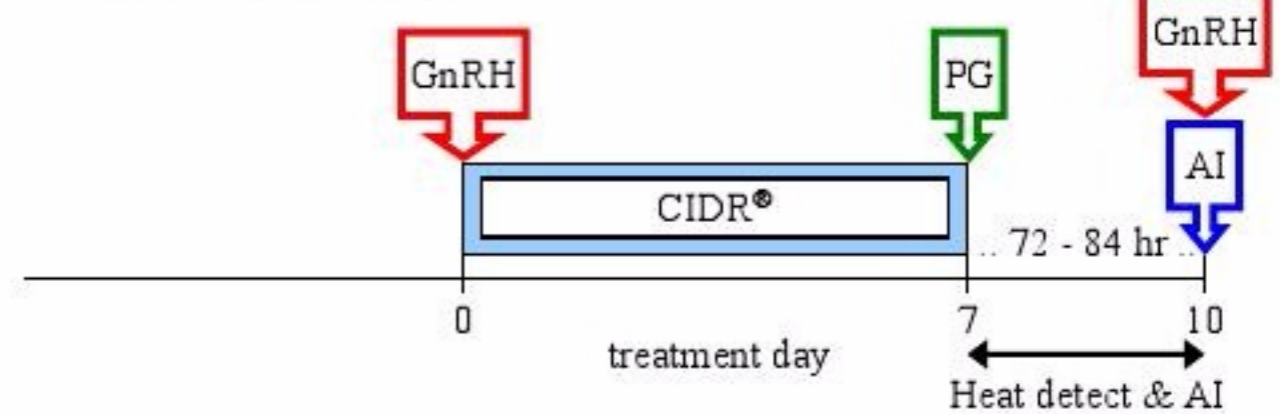

Select Synch & TAI

Heat detect and AI day 6 to 10 and TAI all non-responders 72 - 84 hr after PG with GnRH at TAI.

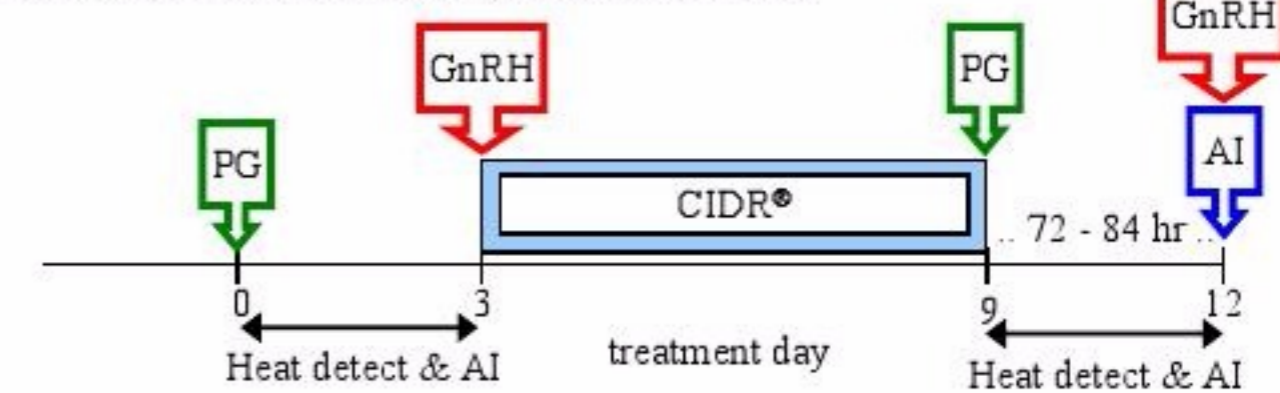

Select Synch + CIDR® & TAI

Heat detect and AI day 7 to 10 and TAI all non-responders 72 - 84 hr after PG with GnRH at TAI.

PG 6-day CIDR® & TAI

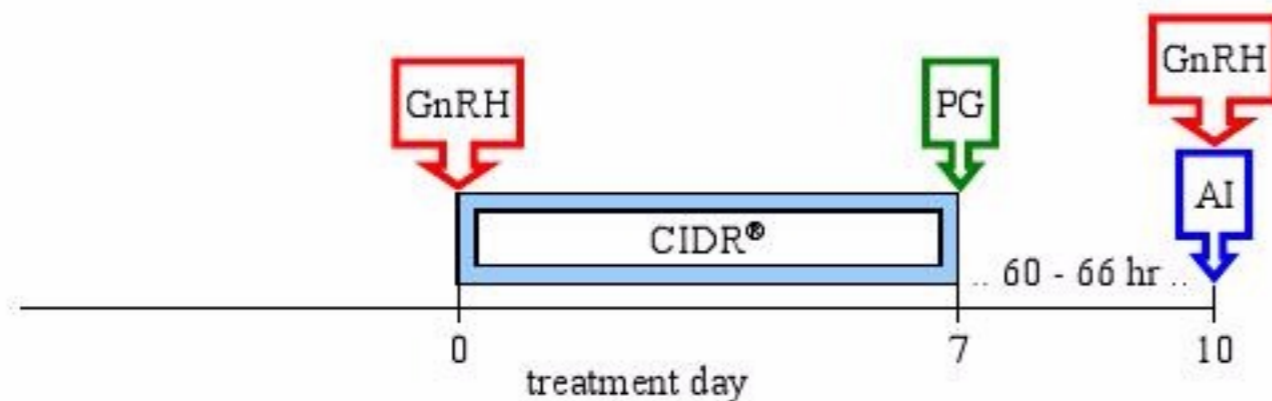

Heat detect & AI days 0 to 3. Administer CIDR to non-responders & heat detect and AI days 9 to 12. TAI non-responders 72 - 84 hr after CIDR removal with GnRH at AI. Protocol may be used in heifers.

FIXED-TIME AI (TAI)*

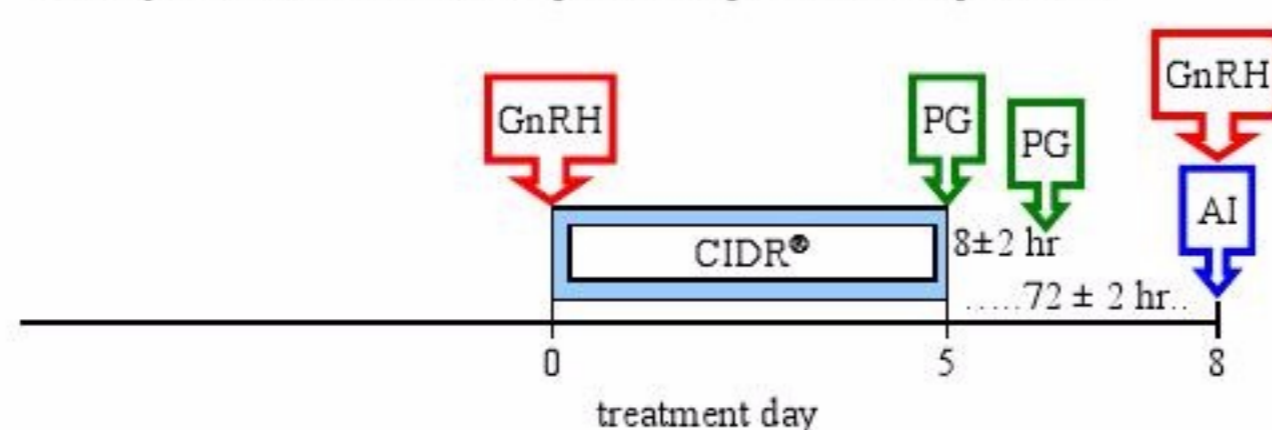

7-day CO-Synch + CIDR®

Perform TAI at 60 to 66 hr after PG with GnRH at TAI.

5-day CO-Synch + CIDR®

Perform TAI at 72 ± 2 hr after CIDR removal with GnRH at TAI. Two injections of PG 8 ± 2 hr apart are required for this protocol.

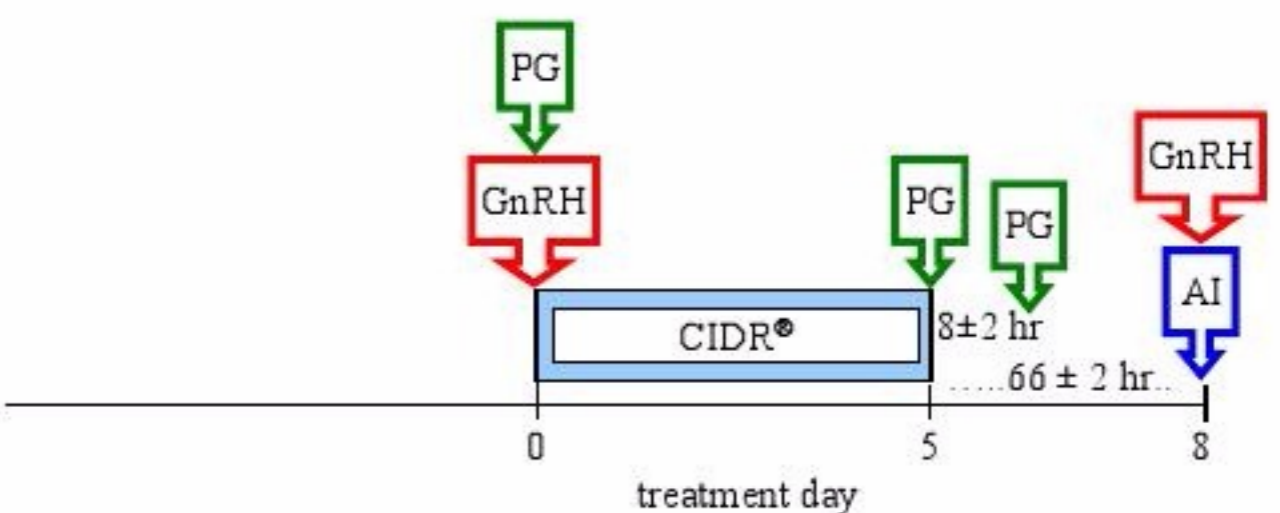

FIXED-TIME AI (TAI)*

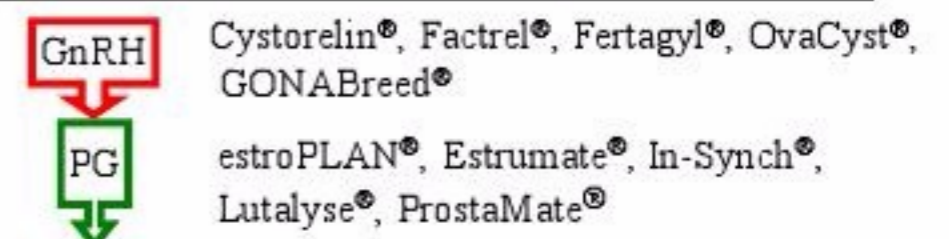

for *Bos Indicus* cows only

PG 5-day CO-Synch + CIDR®

Perform TAI at 66 ± 2 hr after CIDR removal with GnRH at TAI. Two injections of PG 8 ± 2 hr apart are required for this protocol.

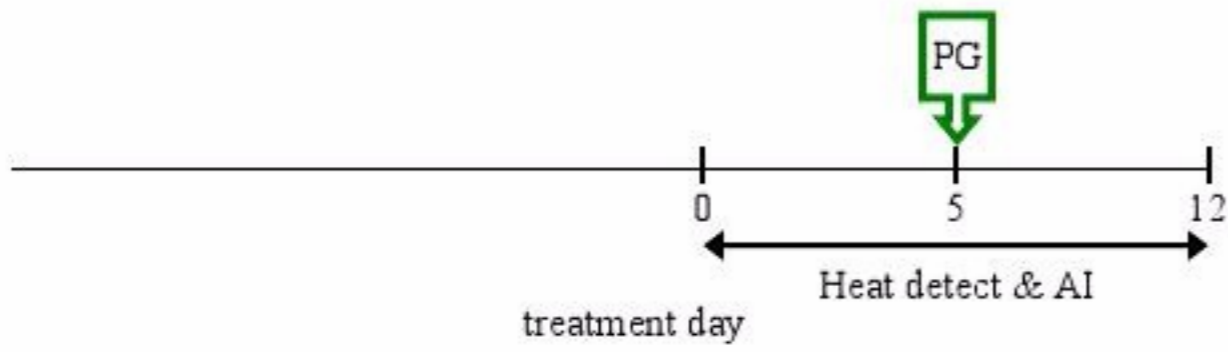

* The time listed for "Fixed-time AI" should be considered as the approximate average time of insemination. This should be based on the number of cows to inseminate, labor, and facilities.

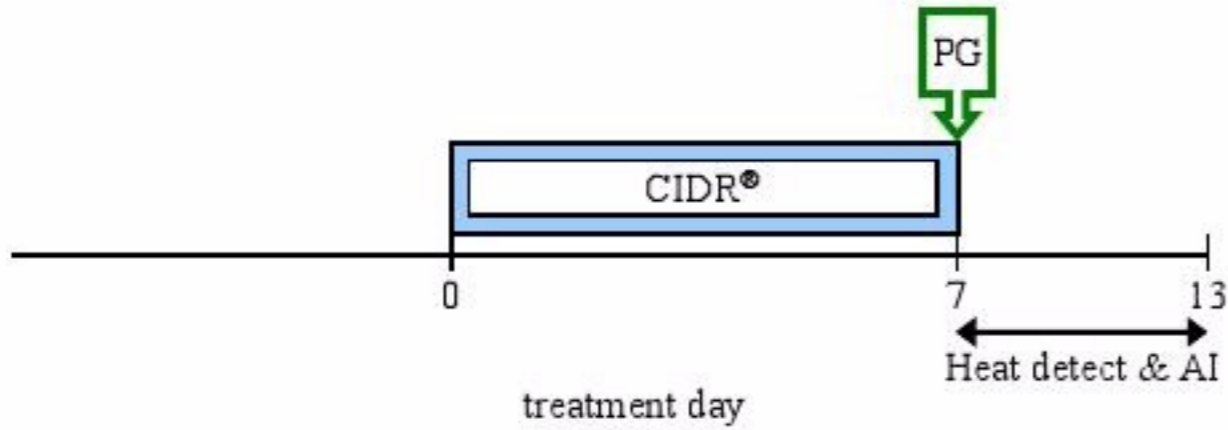

BEEF HEIFER PROTOCOLS - 2016

HEAT DETECTION

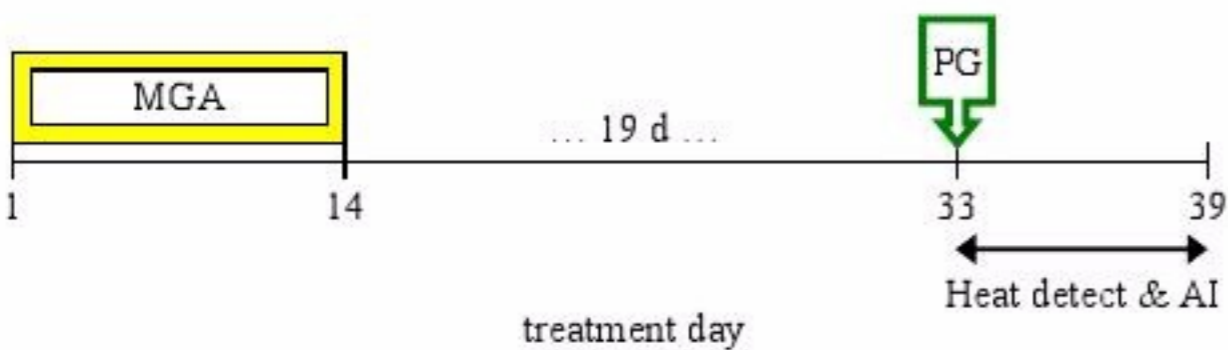

1 Shot PG

7-day CIDR®-PG

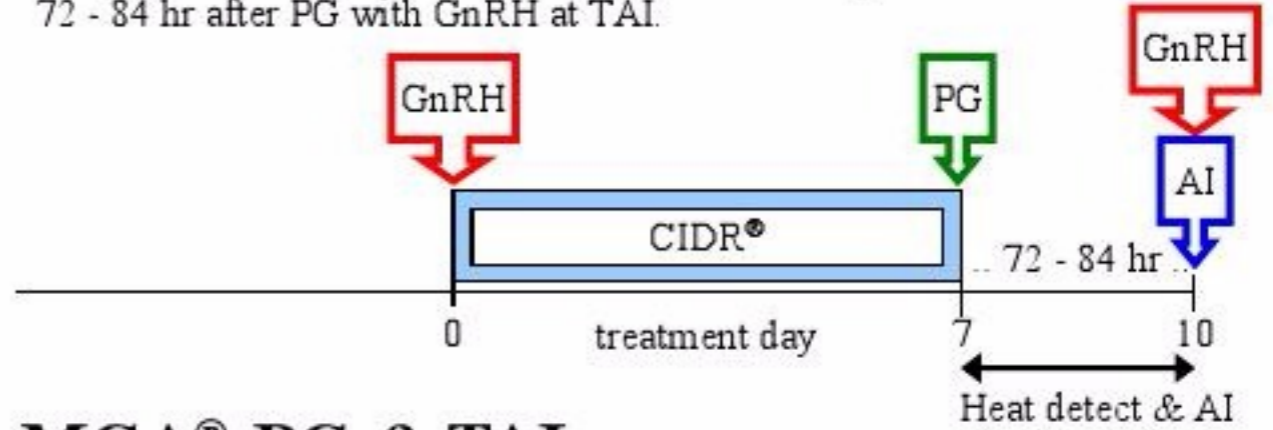

MGA®-PG

HEAT DETECT & TIME AI (TAI)

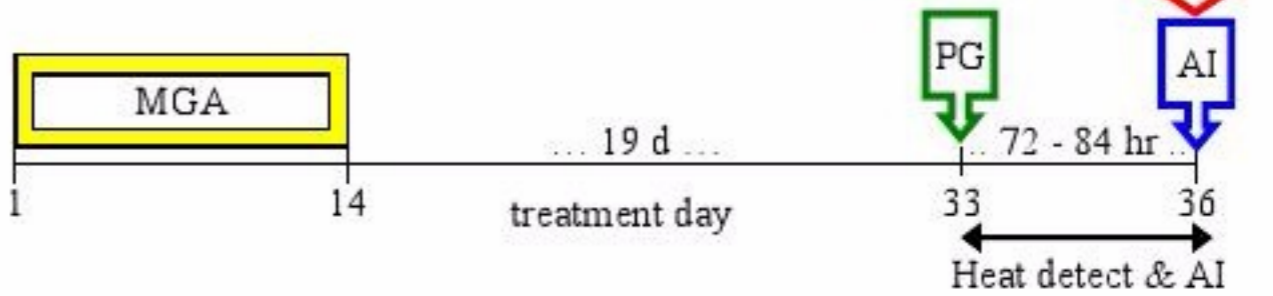

Select Synch + CIDR® & TAI

Heat detect and AI day 7 to 10 and TAI all non-responders
72 - 84 hr after PG with GnRH at TAI.

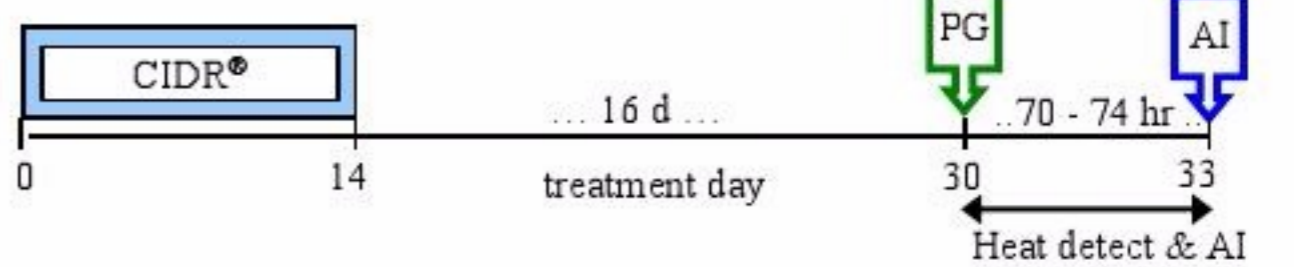

MGA®-PG & TAI

Heat detect and AI day 33 to 36 and TAI all non-responders
72 - 84 hrs after PG with GnRH at TAI.

14-day CIDR®-PG & TAI

Heat detect and AI day 30 to 33 and TAI all non-responders
72 hrs after PG with GnRH at TAI.

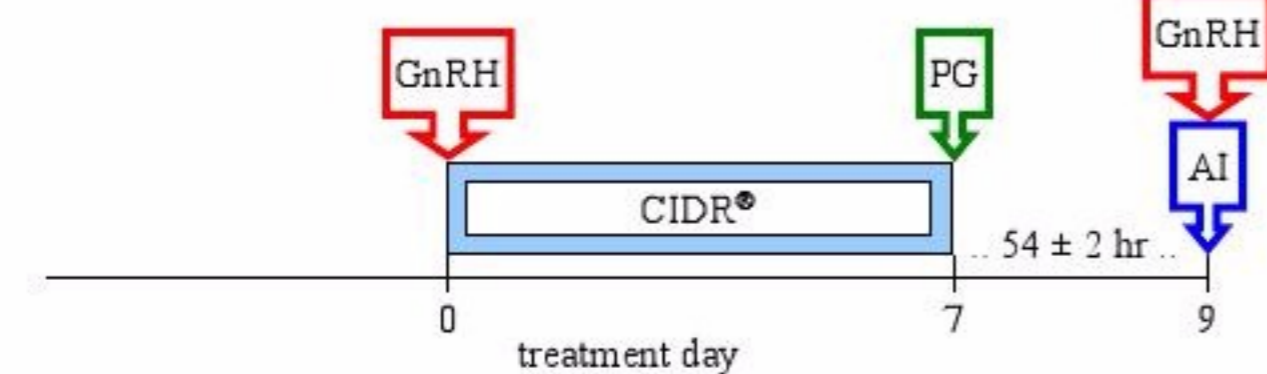

FIXED-TIME AI (TAI)*

Short-term Protocols

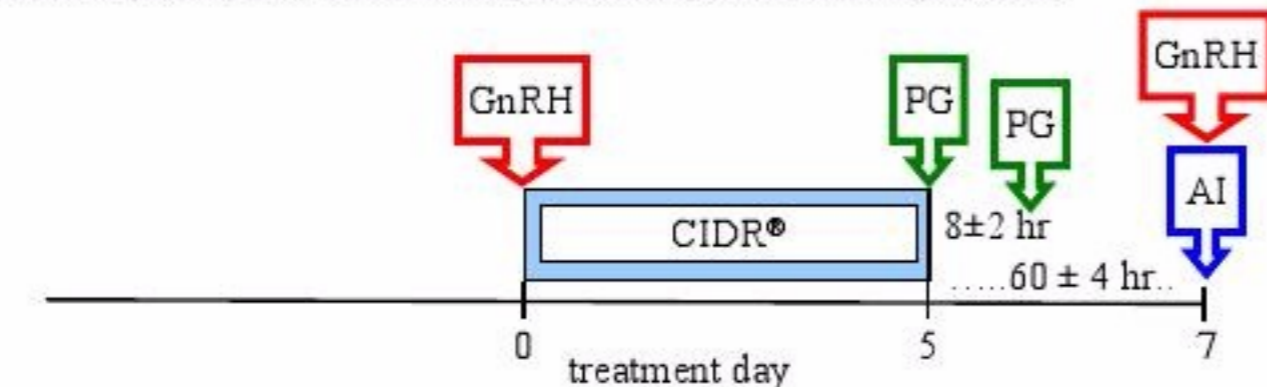

7-day CO-Synch + CIDR®

Perform TAI at 54 ± 2 hr after PG with GnRH at TAI.

5-day CO-Synch + CIDR®

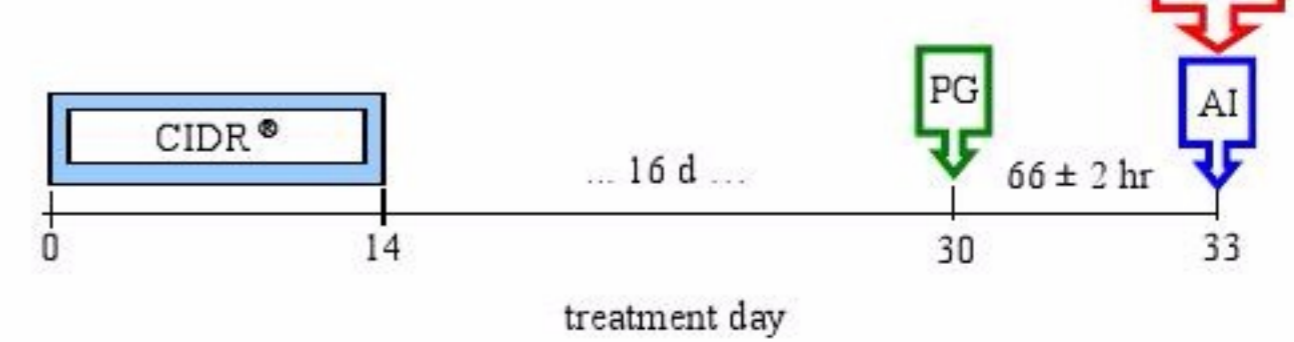

Perform TAI at 60 ± 4 hr after CIDR removal with GnRH at TAI.
Two injections of PG 8 ± 2 hr apart are required for this protocol.

Long-term Protocols

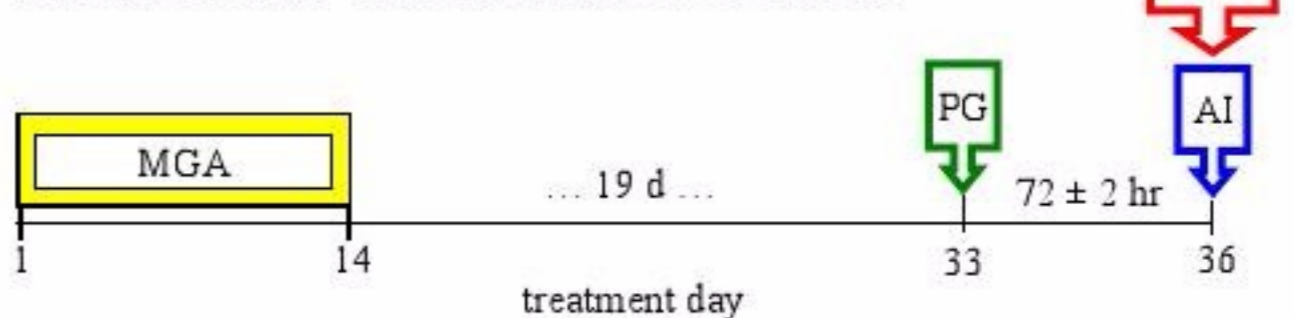

14-day CIDR®-PG

Perform TAI at 66 ± 2 hr after PG with GnRH at TAI.

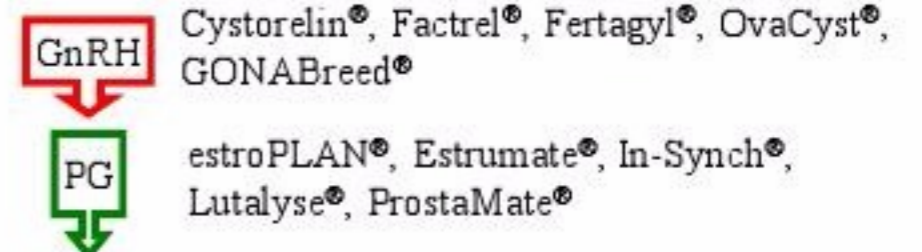

MGA®-PG

Perform TAI at 72 ± 2 hr after PG with GnRH at TAI.

* The times listed for "Fixed-time AI" should be considered as the approximate average time of insemination. This should be based on the number of heifers to inseminate, labor, and facilities.
